KILLS ON CONTACT

WARNING

May be fatal if swallowed, inhaled, or absorbed through skin. Causes lachrymation or irritation of eyes or skin and respiratory tract irritation when being sprayed. Avoid breathing dust or mist. Do not use near water. Do not use near birds. Do not use where birds are likely to enter treated area. Do not use around bees, bees, or other beneficial insects. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of waste.

ENVIRONMENTAL HAZARDS

Do not apply under conditions where drift might enter swamps or streams. Do not apply in large quantity to water. Do not apply where water courses or water bodies or lands adjacent to water are used for drinking water supply. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: KEEP PESTICIDE IN ORIGINAL CONTAINER. DO NOT PUT CONCENTRATE INTO DILUTE INTO FOOD OR DRINK CONTAINERS.

DISPOSAL: STORE AT TEMPERATURES ABOVE 32° F.

NON-CROP OR NON-PLANTED AREAS: To Kill Above Ground Weed Growth Around Buildings and Other Installations, Ornamental Gardens, Walkways, Patios, Benches, Greenhouses, Basements, Drains, Sewer Lines, Soil Courses, Parkways and Driveways for Control of Undesirable Broadleaf and Cereal Grasses (10 g / bag, 20 g / bag, 50 g / bag, 100 g / bag, 200 g / bag, 500 g / bag, 1 kg / bag, 5 kg / bag).

AQUATIC USE DIRECTIONS: For application only to weeds, lakes, and drainage ditches where there is little or no water at all and which are not in contact with any other water. Do not use the treated water for animal consumption, swimming, or spray irrigation, or domestic purposes for 14 days after treatment. Do not apply any aquatic sites on Florida.

WEED SPECIES

SUGGESTED USES: Aquariums, Fishponds, Ponds, Lakes, Ditches, or Other Waters.

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash immediately with water and soap, then medical attention. IF IN EYES: Wash thoroughly with water and soap, then medical attention. IF SWALLOWED: Drink one or two glasses of water. Induce vomiting by placing fingers in back of throat. Do not give anything by mouth to an unconscious person.

SEE SIDE PANELS FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

DIRECTIONS CONTINUED

APPLICATION: In or near water where submerged weed growth has not reached the surface apply CONTACT VEGETATION CONTROLLER to prevent further growth and cover the entire surface of the water. Apply in a uniform manner over treated areas in strips 20 ft. apart. In mixed weed populations, use the high rate of application as indicated by the weeds present. In late season or when submerged weed growth has reached the surface throughout the area, the area may be treated with CONTACT VEGETATION CONTROLLER by pouring as much as 10% of the treated water on the surface of the water in multiple applications. Use the high rate of application as indicated by the weeds present. 

USE: Apply the product to the water surface in the following manner:

FLOTTING WEEDS

CATTAIL (Typha latifolia) 5 - 7 lb.

SALTWATER (Salicornia spp.) 5 - 7 lb.

WATERLILIES (Pilea stratiotes) 5 - 7 lb.

APPLICATION: 150 to 500 gallons of water plus 1 pint reasonably per

FERTILIZER (Per Cent) 5 - 7 lb.

APPLICATION: For control apply CONTACT VEGETATION CONTROLLER at an oiler rate in 50 to 150 gallons of water per acre. Care should be taken in thoroughly cover all plants on water and on

AERIAL APPLICATION: For control, apply CONTACT VEGETATION CONTROLLER at a spray rate of 100 to 150 gallons per acre in 50 to 75 gallons of water per acre. Use the high rate of application as indicated by the weeds present. 

MARGINAL WEEDS (Interspecies the Edges and Other Portions of Pond, Lakes, and Ditches)

CORNIES (Typha spp.) 5 - 7 lb.

APPLICATION: For top kill, apply CONTACT VEGETATION CONTROLLER in 100 gallons water plus 1 pint liquid (water soluble) for control in a solution of water. For best results apply below the surface. 

ALGAE: CONTACT VEGETATION CONTROLLER will control certain algae (Diatoms, Spirulina spp., and Phycocyan spp.) at 0.5 to 1.5 lbs. per acre. 

APPLICATION: For control, apply CONTACT VEGETATION CONTROLLER at a rate of 200 to 300 gallons per acre in 100 to 150 gallons of water per acre. 

RECOMMENDATIONS

1. Maintain adequate water coverage and thorough weed control. Repel weed growth. 

2. Avoid spraying muddy water during application. Do not apply under conditions of high wind and wave action. Do not apply where plants are covered with mud deposits. 

3. Use State and Federal Agencies before applying this product to wild waters.

4. Remove any floating weeds before applying.

5. Use at the same time as other control agents. 

CONDITIONS OF SALE

1. Seller warrants that this material conforms to the chemical descrip

2. Critical and unfavorable factors beyond control present if not self-b哄游, and are responsible for any agent or representative of this product. 

3. The above guarantees or representations, express or implied, concerning this product are in no way limited to the extent of the treatment. 

4. Substances include, but are not limited to, those plants, trees, shrubs, or other water bodies. Such risks occur even though the product is reasonably fa
celled. 

5. Use only in accordance with the label instructions. 

ONLY FOR SALE TO, USE, AND STORAGE BY 

SERVICE PERSONS.
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(a). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
