

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. Product is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination from environmental surfaces. When used as directed, it will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and will inhibit the growth of mold and mildew and their odors when used as directed.

**PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS. DANGER: KEEP OUT OF REACH OF CHILDREN.**

**CORROSIVE:** Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

**STORAGE AND DISPOSAL**

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
- DO NOT STORE ON SIDE.
- AVOID CREEPING OR IMPACTING OF SIDE WALLS.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray, or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Product is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of moderate amounts of organic soil. Apply product to walls, floors, and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, and bedframes with a cloth, mop, or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty.

**Disinfection** - To disinfect hard, non-porous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, product is also virucidal and fungicidal.

**Sanitizing** - To sanitize porous or non-porous surfaces, non-food contact surfaces, add 1/4 oz. per gallon of water.

**1/2 Oz. Per Gallon Use Level** - The broad spectrum activity of product has been evaluated in the presence of 5% serum and found to be effective against the following by the AOAC Use-Dilution test: *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, *Klebsiella pneumoniae*, *Enterobacter aerogenes*, *Salmonella schottmuelleri*, *Streptococcus faecalis*, *Shigella dysenteriae*, *Brevibacterium ammonigenes*.

Manufactured By:  
**CANBERRA CORPORATION**  
3610 Holland-Sylvania Rd.  
Toledo, Ohio 43615

**AOAC Fungicidal Test** - Product is an effective fungicide against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

**Mildewstat Performance** - At 1/2 oz./gallon, product will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

**Virucidal Performance** - At 1/2 oz. per gallon use-level, product was evaluated in the presence of 5% serum and found to be effective against the following viruses: Influenza, A/Hong Kong, Herpes Simplex Types 1 and 2, and Vaccinia on inanimate hard, non-porous environmental surfaces.

(This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.)

**KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS; PERSONAL PROTECTION:** Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye coverings. **CLEANING PROCEDURE:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. **DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. **CONTACT TIME:** Leave surfaces wet for 10 minutes. This contact time will not control other common types of viruses and bacteria.

**Sanitizing Non-Food Contact Surfaces (such as floors, walls, tables, etc.)** - At 1/3 oz. per 2 gallon use-level, 30 second contact time, it is an effective sanitizing agent in waters of up to 600 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on porous and non-porous environmental surfaces.

For Industrial And Institutional Use Only  
Keep From Freezing

**\*HIGH DILUTION QUATERNARY\***

**HUSKY 801**

**\*H/D/Q GERMICIDAL CLEANER**

Highly Concentrated Germicide Based On A Unique Blend Of Quaternaries With Organic Soil Load Tolerance  
Disinfectant / Cleaner / Sanitizer / Fungicide / Mildewstat / Virucide\* / Deodorizer For Hospitals, Institutional And Industrial Use.

**ACTIVE INGREDIENTS**

- Octyl decyl dimethyl ammonium chloride ..... 3.750%
- Dioctyl dimethyl ammonium chloride ..... 1.50%
- Didecyl dimethyl ammonium chloride ..... 2.25%
- Alky (C<sub>11</sub> 50%, C<sub>12</sub> 40%, C<sub>16</sub> 10%)  
dimethyl benzyl ammonium chloride ..... 5.000%
- INERT INGREDIENTS** ..... 87.500%
- TOTAL** 100.000%

Keep Out Of Reach Of Children  
**DANGER**

**Statement of Practical Treatment**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.  
**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

See back panel for additional precautionary statements.
