

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. It has been formulated to aid in the reduction of cross-contamination in these areas.

Product is a one step disinfectant-cleanser that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and inhibits the growth of mold and mildew and their odors when used as directed.

Product is an effective one-step sanitizer-cleanser for use on non-food contact surfaces. When used as directed, Product will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

Precautionary Statements

Hazard: to Humans and Domestic Animals

DANGER

Keep Out of Reach of Children. Corrosive. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash or flush if swallowed or absorbed through skin. Avoid contamination of food.

Storage and Disposal

- Do not contaminate water, food, or feed by storage disposal.
- Do not store on side.
- Avoid creasing or impacting of side walls.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY
KEEP FROM FREEZING

(If container is 1 gallon or less, use this container disposal statement.)
Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Product is a proven one-step disinfectant-cleanser-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply Product to non-porous surfaces such as walls, floors, and ceilings. Use the procedure and directions with a mop or mechanical spray device to clean large floor surfaces. For heavily soiled areas, a preliminary scrubbing is required. Prepare a fresh solution daily. A solution will become visibly cloudy.

Disinfection - To disinfect hard non-porous surfaces such as walls or floor surfaces of water. If a solution is used, it should be used for 10 minutes. The activity of Product has been evaluated in the presence of 5% serum contamination. This water by the AHA use disinfectant activity. Product is a broad spectrum of germicide and sporicidal agent as represented by:

<i>Proteus mirabilis</i>	<i>Salmonella typhi</i>
<i>Staphylococcus aureus</i>	<i>Staphylococcus faecalis</i>
<i>Salmonella choleraesuis</i>	<i>Shigella dysenteriae</i>
<i>Escherichia coli</i>	<i>Brevibacterium emmiae</i>
<i>Streptococcus pyogenes</i>	<i>Salmonella typhi</i>
<i>Klebsiella pneumoniae</i>	<i>Serratia marcescens</i>
<i>Enterobacter aerogenes</i>	<i>Pseudomonas cepacia</i>

Fungicidal Performance -

Product is an effective fungicide against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, etc. at 0.5% solution.

Mold and Mildew Control - At 0.5% solution Product will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard non-porous surfaces (as indicated in the directions above). Allow to dry on surface and repeat when mold growth returns.

Sanitizing Non-Food Contact Surfaces (such as floors, walls, tables, etc.) At 0.5% per 3.3 gallon use over Product is an effective sanitizer against *Staphylococcus aureus* and *Klebsiella pneumoniae* on hard porous and non-porous environmental surfaces. Soiled surfaces must remain wet for 90 seconds.

Virucide Performance - At 0.5% per gallon use over. The product was evaluated in the presence of 5% serum and 4% PHA hard water for a contact time of 10 minutes at room temperature (20-25°C). Against the following viruses found on inanimate hard non-porous environmental surfaces:

MV-1 (Adenovirus) Influenza A/Bird
Hepatitis Type 1 and 2 Vaccinia

Product is not for use on porous surfaces, such as walls, floors, ceilings, etc. If used on these surfaces, it will cause staining or other damage. Do not use on carpeting or other soft surfaces. Do not use on painted or varnished surfaces. Do not use on wood, stone, or other surfaces which may be damaged by the product. Do not use on electrical equipment. Do not use on electrical equipment with a voltage rating above 1000V.

SPECIAL INSTRUCTIONS FOR CLEANING AND DISINFECTING WITH PRODUCT

PERSONAL PROTECTION - Specific barrier protection items to be used when handling, transporting, or using the product are disposable gloves, goggles, mask, or eye coverings.

CLEANING PROCEDURE - Floors and other hard surfaces must be thoroughly cleaned from surface and objects before application of the disinfectant.

DISPOSAL OF INFECTIOUS MATERIALS - Floors and other hard surfaces should be thoroughly cleaned and disinfected by product, after and proper regulations for infectious waste disposal.

CONTACT TIME - Leave surfaces wet for 10 minutes. This contact time will not control other common types of viruses and bacteria.
