This product is a low foaming carpet detergent formulated for use with extraction and carpet cleaning equipment. It contains tertiary ammonium cationic dyes to enhance the ability of gram negative and gram positive color forming bacteria. It is treated with odor counteragents to neutralize unpleasant odors. Recommended for use on washable synthetic fibers, but not recommended for use on wool carpets. Removes greasy soil, leaves no residue to promote resoiling and eliminates soil redeposition to vacuum pick-up tasks. Not recommended for use on stain-resistant carpets.

**To Clean, Sanitize, and Deodorize Carpets:** Vacuum carpet before cleaning. Mix two (2) ounces of powder per gallon of water. Hand and extract as you would other steam cleaning shampoo. For rotary floor machine, mix four (4) ounces of product per gallon of water. Spray carpet at rate of 300 - 300 sq. ft. per gallon.

**Note:** Test color fastness of carpet before use. Apply diluted cleaner to a small concealed spot. Run with clean white cloth. If color transfers to cloth or changes, a water base product should not be used.

After cleaning, set carpet pile in one direction with a stiff brush. Place absorbent felt under legs of furniture while carpet is drying. Over-wetting can cause shrinking of carpet. Manufacturer assumes no responsibility for over-wetting or misuse.
