ACTIVE INGREDIENTS:

Octyl decyl dimethyl ammonium chlorides.....	0.75%
Diocetyl dimethyl ammonium chlorides.....	0.30%
Didecyl dimethyl ammonium chlorides.....	0.45%
Alkyl (C14 50%, C12, 40%, C16 10%) dimethyl benzyl ammonium chlorides.....	1.00%
OTHER INGREDIENTS.....	97.50%
TOTAL.....	100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See side panel for additional precautionary statements.

Cleans Disinfects Deodorizes

(Heavy Duty) (Bathroom) Cleaner, Disinfectant, Mildewstat and Deodorizer

This product will deodorize surfaces in restrooms and toilet areas and other places where bacterial growth can cause malodors. Quickly removes soap scum from shower tile, fiberglass, chrome and glass, toilet bowls, sinks, tubs and spas.

This product will deliver acid disinfectant performance in an economical concentrate.

This product is an economical concentrate.

This product can be diluted for use with a mop and bucket, trigger sprayers, sponge or by soaking.

This product is formulated for use in daily maintenance programs to deliver effective disinfecting and malodor control.

This product will not leave grit or soap scum.

✓ This product effectively controls mold and mildew.

This product inhibits (the growth of) mold and mildew, leaving area clean and smelling fresh.

(02-21-03) Pg. 2 of 4

- ✓ This product is a proven "one-step" cleaner-disinfectant in water up to 400 ppm hardness in the presence of moderate amounts of organic soil at a use-dilution of 4 oz. per gallon of water.
- ✓ This product is a proven "one-step" cleaner-sanitizer for non-food contact surfaces in the presence of moderate amounts of organic soil at a use-dilution of 0.75 oz. per gallon of water.
- This product is a versatile disinfectant.
- This product inhibits bacterial growth on moist surfaces.
- A concentrated one-step (Hospital) disinfectant that is effective against a broad spectrum of bacteria and eliminates odor causing bacteria when used as directed.
- This product deodorizes by killing microorganisms that cause offensive odors.
- This product is a complete, chemically balanced disinfectant-cleaner, sanitizer that provides clear use solutions even in the presence of hard water.
- Cross-contamination is of major housekeeping concern.
- This product has been formulated to aid in the reduction of cross-contamination not only in hospitals, but in schools, institutions and industry.
- This product is designed to help prevent cross-contamination in hospitals and nursing homes that can lead to nosocomial infections.

Use this product:

- as a disinfectant on hard nonporous surfaces.
- as a broad spectrum disinfectant.
- to disinfect sinks and tubs.
- in kitchens, bathrooms and other areas.
- for (non-scratch) cleaning of showers and tubs, shower doors and plastic curtains, fixtures and toilet bowls.

Use in hospitals, medical and dental offices, nursing homes, day care centers, nurseries, homes, restaurants and bars, convenience stores, public rest rooms, institutions, schools and colleges, athletic facilities, locker rooms, dressing rooms, bathrooms, shower and bath areas, exercise facilities, camp grounds, public facilities, transportation terminals, airports, hotels and motels, factories, business and office buildings, barber shops and salons, boats, cruise ships, recreational vehicles, buses, trains, subways and airplanes.

Use on washable hard nonporous surfaces: such as walls, floors, countertops, sinks, cabinets, shower stalls, shower walls and doors, tubs and glazed tiles, whirlpool bathtubs, toilets bowls and other bathroom surfaces, coils and drain pans of air conditioning and refrigeration equipment and heat pumps (follow use directions for sanitizing non-food contact surfaces), and other hard nonporous surfaces of stainless steel, chrome, glazed porcelain, glazed ceramic, fiberglass, plastic, enameled surfaces, vinyl and plastic furniture. (Do not use on PVD finished surfaces.)

HARD WATER DISINFECTION

A hospital disinfectant at 1:32 dilution (4 oz. per gallon of water); this product has been evaluated by the AOAC Use-Dilution test in the presence of 5% blood serum and 400 ppm hard water and found to be effective against a broad spectrum of gram positive and gram negative organisms represented by:

- | | | |
|------------------------|-------------------------------|-------------------------|
| Pseudomonas aeruginosa | Staphylococcus aureus (Staph) | Salmonella choleraesuis |
|------------------------|-------------------------------|-------------------------|

DISINFECTION

A hospital disinfectant at 1:43 dilution (3 oz. per gallon of water); this product has been evaluated by the AOAC Use-Dilution test in the presence of 5% blood serum and found to be effective against a broad spectrum of gram positive and gram negative organisms represented by:

- | | | | |
|-----------------------------|-------------------------------|---|------|
| Pseudomonas aeruginosa | Staphylococcus aureus (Staph) | Salmonella choleraesuis | •••• |
| Brevibacterium ammoniagenes | Escherichia coli (E.coli) | Salmonella typhi | •••• |
| Klebsiella pneumoniae | Shigella dysenteriae | Staphylococcus aureus - Meticillin | •••• |
| Resistant(MRSA) | Serratia marcescens | Streptococcus pyogenes | •••• |
| Enterobacter aerogenes | Proteus mirabilis | | •••• |

SANITIZING NON-FOOD CONTACT SURFACES

This product meets EPA's Sanitizer Test standards for non-food contact surface sanitizers. At 0.75 oz. per gallon of water, it is an effective sanitizer on hard nonporous environmental surfaces (such as floors, walls, sinks) by eliminating 99.9% of Staphylococcus aureus and Klebsiella pneumoniae in 60 seconds.

NOTE TO REVIEWER – USE DIRECTION LANGUAGE IN () IS CONSIDERED OPTIONAL(02-21-03) Pg. 3 of 4

Dilution:

- Hard Water Disinfection (1:32) 4 oz. per gallon of water
- Disinfection (1:43) 3 oz. per gallon of water
- Sanitizer (1:170) 0.75 oz. per gallon of water (or equivalent dilution)

DIRECTION FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HARD WATER DISINFECTION DIRECTIONS

Add 4 oz of product per gallon of water (or equivalent dilution) to disinfect hard, nonporous surfaces.

DISINFECTION DIRECTIONS

Add 3 oz of product per gallon of water (or equivalent dilution) to disinfect hard, nonporous surfaces.

Apply use-solution with a cloth, mop, sponge, sprayer or by immersion, thoroughly wetting surfaces. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not breathe spray. Treated surfaces must remain wet for 10 minutes. Rinse with clean water. Prepare a fresh solution daily or more often if the use solution becomes visibly diluted or soiled. Rinse food contact surfaces such as countertops, tables, picnic tables, appliances and/or stove tops with potable water prior to reuse. Do not use on glasses, dishes or utensils. For heavily soiled areas, a preliminary cleaning is required.

This product is not for use on medical device surfaces.

MILDEWSTAT DIRECTIONS

A solution of 3 - 4 oz. of product with a gallon of water (or equivalent dilution) will effectively control or inhibit the growth of mold or mildew and the odors caused by them when applied to hard, nonporous, environmental surfaces. Allow to dry on surface and repeat when mildew growth re-appears.

TO SANITIZE NON-FOOD CONTACT SURFACES:

Add 0.75 oz. of product per gallon of water (or equivalent dilution) to sanitize hard nonporous surfaces. Apply sanitizer use-solution with a cloth, mop sponge, sprayer or by immersion, thoroughly wetting surfaces. For sprayer applications, use a coarse spray device. Spray 6 – 8 inches from surface; rub with brush, sponge or cloth. Avoid breathing spray. Treated surfaces must remain wet for 60 seconds. **Air dry.** Prepare fresh solution daily or more often if solution becomes visibly diluted, cloudy or soiled.

TOILET BOWL CLEANER/DISINFECTANT DIRECTIONS

Flush toilet. Then add 3 – 4 oz. of product to the toilet bowl (0.75 gallons) and mix. Brush thoroughly over exposed surfaces and under the rim. Allow to stand for ten (10) minutes and flush. For heavy soil, a preliminary cleaning is recommended.

SALON (BARBER) INSTRUMENTS AND TOOLS DISINFECTION DIRECTIONS:

Add 3 oz of product per gallon of water (or equivalent dilution) to disinfect hard, nonporous instruments and tools. Completely immerse combs, brushes, rollers, razors, scissors, blades, manicure and other salon instruments and tools for 10 minutes. For heavily soiled instruments and tools, a preliminary cleaning is required. Rinse thoroughly and dry before use. Prepare a fresh solution daily or more often if the use solution becomes visibly diluted or soiled. Note: Plastics may remain immersed until ready to use. Stainless steel shears and instruments must be removed after 10 minutes, rinsed dried and kept in a clean, non-contaminated receptacle. Prolonged soaking may cause damage to instruments.

TO SANITIZE SALON (BARBER) INSTRUMENTS AND TOOLS:

Immerse pre-cleaned salon (barber) instruments and tools (such as combs, brushes, rollers, razors, scissors, blades, manicure instruments) in a use-solution of 0.75 oz. of product per gallon of water (or equivalent dilution) for at least 60 seconds. Rinse thoroughly and dry before use. Prepare a fresh solution daily or more often if the use solution becomes visibly diluted, cloudy or soiled. Note: Plastics may remain immersed until ready to use. Stainless steel shears and instruments must be removed after 10 minutes, rinsed dried and kept in a clean, non-contaminated receptacle. Prolonged soaking may cause damage to instruments.

(HEAVY DUTY CLEANING DIRECTIONS)

(For heavy duty cleaning of stubborn rust stains, hard water deposits or lime soap buildups, dilute 3 - 32 oz of product per gallon of water (1:43 to 1:3 use dilution). Apply with a cloth, mop, sponge, sprayer or by immersion, thoroughly wetting surfaces. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface. Do not breathe spray. Allow product to work for 1 - 2 minutes. Agitate with brush, if necessary. Rinse with clean water.)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Do not breathe spray mist. Harmful or fatal if swallowed. Avoid contamination of food. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FOR CONTAINERS LESS THAN 1 GALLON:

STORAGE AND DISPOSAL

Store in original container in areas inaccessible to children. Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash or recycle.

FOR CONTAINERS OVER 1 GALLON:

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE Open dumping is prohibited. Store in original container in areas inaccessible to children. Do not reuse empty container.

PESTICIDE DISPOSAL Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL Triple rinse(or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FOR CONTAINERS OVER 5 GALLONS:

Environmental Hazards

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System(NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
