

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

Caution: Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water. If irritation persists, get medical attention. Wear long-sleeved shirt and pants; chemical resistant gloves; shoes and socks for protection when handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water when disposing of equipment wash water.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry place in original container.

Disposal: Completely empty container into application (mixer/feeder) equipment. Then dispose of empty bag in a sanitary landfill or by incineration or if allowed, by State and local authorities by burning. If burned, stay out of smoke. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Allow free choice to cattle. Cattle should consume an average of 5 oz. of the mineral per 100 lbs. of body weight per month. This will supply the recommended average daily intake of 70 mg. RABON® Oral Larvicide per hundred pounds body weight. Animals should not be starved for minerals before initiation of the RABON Cattle Mineral Mix program but OMIT all salt from other feed after the program is started. Do not feed other free choice sources of salt or mineral containing salt in any form. Allow one mineral feeder for each 15-20 head, and place near watering and loafing areas. Put out no more than one month's supply at a time, and protect from rain.

If consumption of WESTERN FLY-TROL Mineral Mix is above 5 oz. per 100 lbs. of body weight per month, reduce the number of feeding locations or relocate. If consumption is below 5 oz. per 100 lbs. of body weight per month, increase the number of feeding locations. Start feeding WESTERN FLY-TROL Mineral Mix early in the spring before flies begin to appear, and continue feeding throughout the summer and into fall. WESTERN FLY-TROL Mineral Mix may be fed up to slaughter and to lactating dairy cows.

WESTERN FLY-TROL Mineral Mix prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle but is not effective against existing adult flies. When starting a feeding program during the fly season, it may be necessary to use other control measures to reduce the population of existing adult flies.

Supplemental fly control measures may be needed in and around cattle lots and buildings to control adult house flies and stable flies which can breed not only in cattle manure but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, WESTERN FLY-TROL Mineral Mix should be used in conjunction with other good management and sanitation practices.

ACCEPTED

OCT 27 1989

Under the Federal Insecticide, Fungicide, and
Rodenticide Act, as amended, for the
purpose of registration under
EPA Reg. No. 8188-3

20-384M

WESTERN FLY-TROL

Mineral Mix
For Self Feeding

(With RABON® Oral Larvicide)

To prevent the development of Horn Flies, Face Flies, House Flies, and Stable Flies in the manure of treated cattle.

ACTIVE INGREDIENT

Tetrachlorvinphos: 2-chloro-1-(2,4,5-trichlorophenyl) vinyl

dimethyl phosphate 1.5%*

INERT INGREDIENTS

BY WEIGHT

98.5%**

100.0%

*RABON Insecticide — Contains 6.81 grams of RABON per pound.

**Refers only to ingredients which are not larvicidal.

GUARANTEED ANALYSIS

Phosphorus (P), min. 8.0%

Calcium (Ca) min. 8.0% max. 9.6%

Iodine, min. 0.02%

Salt min. 25.0% max. 30.0%

Vitamin A, min. 100,000 USP Units/lb.

FEED INGREDIENTS

Dicalcium Phosphate, Monocalcium Phosphate, Ground Limestone, Salt, Sodium Bentonite, Grain Products, Dried Yeast Culture, Cane Molasses, Manganous Oxide, Cobalt Carbonate, Copper Oxide, Ferrous Carbonate, Ethylenediamine Dihydriodide, Sodium Selenite, Magnesium Oxide, Zinc Oxide, Iron Oxide, Calcium Iodate, Vitamin A Supplement (stability improved), Natural and Artificial Flavors.
