

ACCEPTED
 MAR 6 1981
 Under the Federal Insecticide, Fungicide, and Plant Growth Regulator Act, as amended, this product is registered under EPA Reg. No. 8203-22

NET CONTENTS
 30 U.S. gallons

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND
 DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. May be absorbed through skin and throat. Avoid contact with GRANOX Flowable. Use of rubber gloves is recommended. Avoid exposure to spray mist. Wash thoroughly after handling. Treat seed in a well ventilated place.

Treated seed must not be used for or mixed with food or animal feed, or processed for oil. Seed commercially treated with GRANOX Flowable must be labeled in accordance with all applicable requirements of the Federal Seed Act.

Treated seed should be labelled: 'Treated seed, do not use for food, feed or oil purposes'.

FIRST AID

IF SWALLOWED, induce vomiting. In case of contact flush skin or eyes with plenty of water, for eyes get medical attention

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Exposed treated seeds may be hazardous to birds and other wildlife. Dispose of all treated seeds by burial away from bodies of water.

PRODUCT INFORMATION

GRANOX Flowable is a special seed treatment formulation of maneb and HCB which, when used at the correct dosage rates, protects crops against seed-borne diseases such as Stinking Smut (Blunt) of Wheat, Oat Smuts, Covered and False Loose Smuts of Barley and Bunt of Rye. It also protects against certain seed and soil-borne diseases such as Seed Decay, Seed Rot and Seedling Blight of Wheat, Oats, Barley and Rye.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GRANOX Flowable
FUNGICIDE SEED TREATMENT

**A ready-to-use flowable formulation
 for control of bunt, smuts, seed
 decay, seed rot and seedling blight.**

 EPA Reg No 8203-22

GRANOX is a registered trade mark of Chipman Inc. Canada

STIR WELL BEFORE USE
 To prepare formulation for use, remove center cap from drum head and insert a removable agitator. Space is provided for a syphon pipe to be in place during agitation. Remove the agitator after use and reseal the drum.
 Use GRANOX Flowable in liquid and slurry seed treaters at the following rates:
 Wheat 1.6 fl. oz. per bushel
 Oats, Barley, Rye 3.2 fl. oz. per bushel
 Use only recommended rates — lower amounts may not give the desired control. Higher amounts may cause seed injury. Seed should be well aired, dried and cleaned before treatment. For maximum benefits avoid deep seeding and except in early sowing under poor growing conditions

STORAGE AND DISPOSAL
STORAGE: PRODUCT FREEZING
 TEMPERATURE IS 15°F.
 Satisfactory utility is restored after thawing and mixing of product stored at temperatures as low as -12°F. Freezing and thawing may produce some thickening of the product. Store away from water, food and feed.
DISPOSAL: Do not reuse empty container. Open dumping is prohibited. Do not contaminate water, food or feed by disposal. Pesticide or rinsate should be disposed in a landfill approved for pesticides or buried in a safe place away from water supplies. Triple rinse empty drum and return to drum conditioner, offer for recycling, or dispose in an approved landfill or crush and bury in a safe place.

NOTICE TO BUYER
 Seller's guarantee shall be limited to the terms set out on the label and subject thereto the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
