Insecticidal Ear Wash  
for Dogs

EAR-RITE contains the following:

ACTIVE INGREDIENTS:	
Technical Piperonyl Butoxide*	0.50%
Pyrethrins	0.05%
INERT INGREDIENTS	99.45%
	100.00

\* Equivalent to 0.4% (butylcarbityl)  
(6-propylpiperonyl) ether and  
0.1% other related compounds.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS**

**CAUTION**  
Harmful if swallowed. For external  
use on dogs only. Not for prolonged  
use. If condition for which this  
preparation is used persists or if a  
rash or irritation develops,  
discontinue use and consult a  
veterinarian.

**STATEMENT OF PRACTICAL  
TREATMENT**  
If Swallowed: Induce vomiting by  
touching finger to back of throat.

**PHYSICAL OR CHEMICAL  
HAZARD**  
Do not use, pour, spill or store near  
heat or open flame.

**STORAGE AND DISPOSAL  
DIRECTIONS**  
Store in a cool and dry place.  
Do not reuse empty container. Wrap  
container and discard in trash.

**EAR MITE DIAGNOSIS**  
Dogs with ear mites will shake their  
heads and vigorously scratch their  
ears. Ear mites live in the ear canal  
where they cause a dark-reddish  
brown, waxy debris to be formed.  
The mites can usually be seen by  
placing a small amount of the debris  
on a black surface under a bright  
light. They will appear as small,  
moving white specks.

**DIRECTIONS FOR USE**  
It is a violation of federal law to use  
this product in a manner inconsistent  
with its labeling. Clean ears twice a  
month as an aid in reducing prob-  
ability of ear mite infestation and  
wax accumulation. Instill 10 drops of  
EAR-RITE into each ear. Gently  
massage base of ear for 3 to 5  
minutes. Let soak for a few more  
minutes. Then let dog shake its head  
to remove as much EAR-RITE as  
possible. Swab thoroughly with  
cotton.
