Used by Rodd Woodhouse, Owner and Trainer of Lassie.

WARNING: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DO NOT TREAT PETS WITH THIS PRODUCT.** To avoid the spread of pest infestation, areas containing the treated areas should be treated separately with flea and tick control products registered for application to pets. For control of flea and tick infestation on dogs and cats, spray LASSIE Household Flea and Tick Killer on areas where these pests may be present such as floors, rugs, drapes, upholstery, pet bedding, crates and carriers, mattresses and window and door frames. The handling of pets should be postponed and resumed only after flea handling after treatment of pet areas. Tests have shown the product will not stain most fabrics or rugs.

LASSIE Household Flea and Tick Killer has excellent stability and longer working for some other insecticides. Repeat the treatment as needed. LASSIE Household Flea and Tick Killer will also control the following pests: flea, carpet beetle, silver moth, cockroach, cricket, termite, spider, wasp, carpenter, shorebird, spider.

CAUTION: Do not apply directly to animals, avoid breathing, avoid contact with eyes and avoid contact with other treated surfaces. Do not use in poultry houses, greenhouses, or buildings. Do not allow spray to contact food, feedstuffs, or drinking water. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Leave treated areas and do not return for at least one hour. Do not allow children or pets to walk on treated surfaces until they are completely dry. Remove pets and cover fish tanks (aerated before use).

DISPOSAL: Do not reuse empty bottle. Wrap bottle and put in trash.

PHYSICAL OR CHEMICAL HAZARDS
