PRECAUTIONARY STATEMENTS

CAUTION: Hazards to Humans (and domestic animals). Harmful if swallowed or inhaled. Avoid skin contact. Avoid inhaling. Avoid contamination of foodstuffs. Wash hands after applying.

Do not treat kittens under 4 weeks of age. Do not exceed recommended dose. Do not spray directly on kittens. Carbaryl is a cholinesterase inhibitor. Do not use this product on animals simultaneously or within a few days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. Atropine is antidotal. Consult veterinarian at first sign of adverse reaction.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center. Drink at least 2 glasses of water and induce vomiting by touching finger to back of throat or, if available, by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person.
If in the Eyes: Flush with plenty of water. Get medical attention if irritation persists.
If on Skin: Wash off with soap and water.

Environmental Hazards

This pesticide is toxic to aquatic organisms. Do not spray directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

FLAMMABLE! Keep away from heat or open flame.

Storage and Disposal Directions

STORAGE: Flammable. Keep away from heat or open flame.
DISPOSAL: Do not reuse empty container. Wrap container and discard in trash.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR KITTENS (over 4 weeks old): Wrap the animal in a towel which has been sprayed lightly. Leave the nose and mouth exposed for normal breathing. Keep the animal wrapped for 5 to 10 minutes. Fleas may then be removed from the coat by picking or combing. Repeat as necessary but not more often than once weekly.

FOR CATS: Direct the spray over the animal until the entire coat is slightly damp. On a heavily coated animal, ruffle the coat and spray against the lay of the hair. For best results in controlling ticks, spray directly on the tick. Thoroughly spray sleeping quarters. Laboratory tests have shown one treatment kills fleas up to 21 days. In areas of heavy flea infestation it may be necessary to apply more frequently, but not more than once a week. This spray may discolor the coat of white haired animals in the presence of oxidizing agents. Whitener shampoos and bleaching agents are oxidizing agents. Do not treat rugs, drapes and other fabrics.

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith. Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you: 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data. 2. Add the phrase "EPA Registration No. 10370-149" to your label before you release the product for shipment. 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-77 Enclosure for a further description of final printed labeling.
