SPRAY FOR DOGS**

ACTIVE INGREDIENTS

Pyrethrins  
Permethrin  
Fenoxycarb  
Methoprene

KEEP OUT OF REACH OF CHILDREN

CAUTION

Lambert Kay

16 FL. OZ. (473 mL)

X-O-TROL™ Flea & Tick Spray for Dogs works three ways: 1. PYRETHRINS kill on contact. 2. PERMETHRIN kills for an extended period of time. 3. FENOXYCARB (IGR) kills flea eggs and prevents immature stages of the flea—eggs, pupae and larvae—from developing into biting adults for 127 days.

Spot treatments will kill adult fleas that may reappear on your pet after treatment. X-O-TROL™ Spray for Dogs kills flea eggs on your pet and helps kill them on surfaces your pet contacts (i.e. bedding, rugs and furniture). It works for 127 days to prevent pre-adult insects from continuing their life cycle, no matter what the life cycle stage. For more complete flea control in the environment, use X-O-TROL™ Flea and Tick Foggers.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed, or absorbed through the skin. Avoid breathing vapors. Do not spray in eyes, face or on genitalia. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Do not use on nursing puppies under 3 months of age. Do not use this or any other pesticide on sick, old or debilitated pets.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call physician or Poison Control Center. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated.

**IF ON SKIN:** Remove contaminated clothing and wash affected areas with soap and water. Get medical attention.

**IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Hold bottle upright and point nozzle in desired direction of spray. Spray the dog from a distance of 8 to 12 inches.

Start spraying at the tail, moving the dispenser rapidly and making sure that the dog's entire body is covered including the legs and under the body. While spraying, fluff the hair so the spray will penetrate to the skin. Make sure spray wets thoroughly. Do not spray into eyes, face or on genitalia. Repeat as necessary.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in a cool area away from heat and open flame. Keep from freezing.

**DISPOSAL:** Do not reuse empty container. Wrap original container in several layers of newspaper and discard in trash.
