

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS, AND IN CONFORMITY WITH FEDERAL AND STATE REGULATIONS:

T & C Gopher Pellets are a scientifically blended pellet containing an aromatic mixture of grains and dehydrated fruit, and pelleted to make it more acceptable to these rodents.

For Pocket Gophers: With the aid of a long handled spoon, remove the soft earth plug leading underground at a freshly thrown out mound of soil. Using the long-handled spoon, insert five or six pellets as far down into the burrow system as possible. Close opening to the surface being careful not to allow loose dirt to cover the bait.

For Ground Squirrels: Scatter pellets on the ground near the mounds on the runways where rodents find their food.

DANGER: Treated bait exposed on soil surface may be hazardous to birds and other wildlife. Do not contaminate water by cleaning of equipment, or disposal of wastes. Dispose of excess treated seeds or wastes by burial. Apply this product only as specified on this label. Do not reuse empty container. Destroy it by burying.

Bait should be placed in areas not accessible to children, pets, game and domestic animals or in tamper proof bait boxes. **POISON** bait swallowed.

Our recommendations for use of this product are those which are believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee is expressed or implied as to the effects of such use or the results thereof if not used in accordance with directions or established practices. The user must assume all responsibility including any injury or loss, and from its use, separately, or in combination with other products.
