

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH CAUTIONS, WARNINGS AND DIRECTIONS.

Hose end sprayers are an excellent way to apply this product.

DO NOT USE ON GRASS LAWNS. Yellow Oxalis and Red Oxalis commonly infest Dichondra Lawns. Yellow Oxalis resembles clover with three heartshaped green leaves. These are 1/2 to 1 1/4 inches long and somewhat hairy. The flowers are yellow with five overlapping sepals and five yellow petals. Red Oxalis is similar, except that the leaves and stems are red-purple and are smaller.

DIRECTIONS

Use this only on DICHONDRA Lawns for the control of Oxalis and Annual Bluegrass. Apply when weeds are present in the lawn. Use 10 level tablespoonfuls in the jar of a 20 gallon fertilizer type, hose-end sprayer, fill with water and shake thoroughly. Attach to the hose and cover five hundred square feet of your dichondra lawn. For small areas a sprinkling can may be used. Place 1 1/2 teaspoonfuls in sprinkling can and mix thoroughly with 1 1/2 to 2 gallons of water and cover 25 square feet. After application, water thoroughly. Dichondra Lawn Oxalis Control works slowly, but if Oxalis fails to turn brown or yellowish within three weeks, it may be necessary to repeat treatment. Do not repeat treatment in less than three weeks. DO NOT APPLY MORE THAN TWICE IN ANY SIX MONTH PERIOD.

CAUTION:

May cause irritation of eyes, nose, throat and skin. Avoid breathing dust or spray mist, and avoid contact with skin, eyes and clothing.

Do not apply on or near valuable trees, shrubs or plants, or on areas where their roots may extend. DO NOT USE ON GRASS LAWNS. Do not use equipment with which Dichondra Lawn Oxalis Control has been applied for spraying insecticides and fertilizers except on your Dichondra Lawn.

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established practice. The Buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.
