DIRECTIONS

Mixing—Make certain Vanelba[®] Storage Tank is clean and free from residue. Dilute at the rate of one (1) gallon of Touche[®] Concentrate to five (5) gallons of water as follows:

Fill Vanelba[®] Storage Tank approximately half full with clear water. Empty contents of this container into storage tank; then fill to within an inch of top with clear water. Replace top of storage tank and fasten securely.

Timing—Set Vanelba[®] Timer at 4-5 minutes to fill the barn space with spray. Most installations require this timing for effective control of stable and house flies. Touche[®] is specially formulated to be applied as a space spray through the Vanelba[®] Mist Spray System.
