Subject: Label Amendment – Secondary container label
Product Name: Mar-V-Cide
EPA Registration Number: 8296-1
Application Date: February, 4, 2016
Decision Number: 513948

Dear Mr. Marvy:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

MAR-V-CIDE®

DISINFECTANT · FUNGICIDE GERMICIDE · VIRUCIDE*

For use in hospitals, nursing homes, health care facilities,
barber shops, beauty shops and hairstyling salons.

For use in pedicure foot spa units.

ANTI-RUST FORMULA

ACTIVE INGREDIENT: n-ALKYL (50% C₁₄, 40% C₁₂, 10% C₁₆)
dimethyl benzyl ammonium chloride . . . 10 %
INERT INGREDIENTS 90 %
TOTAL 100 %

THIS PRODUCT CONTAINS SODIUM NITRITE
KEEP OUT OF REACH OF CHILDREN **DANGER**

ACCEPTED
05/12/2016
Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 8296-1

FIRST AID	
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES:	Hold eyes open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
HOT LINE NUMBER	Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may contact CHEM-TEL at 1-800-255-3924 for emergency medical treatment information.
NOTE TO PHYSICIAN	Probable mucosal damage may contraindicate the use of gastric lavage.

KILLS HIV-1 (AIDS VIRUS) ON PRE-CLEANED HARD, NON-POROUS, INANIMATE ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD AND BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential transmission of Human Immunodeficiency Virus Type 1 (HIV-1).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

DISPOSAL OF INFECTIOUS MATERIAL: Blood and other body fluids should be autoclaved and disposed of according to Federal, State and local regulations for infectious waste disposal.

CONTACT TIME: Leave surface wet for 10 minutes.

SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS
E.P.A. Reg. No.: 08296-1 E.P.A. Est. No.: 08296-MN-001

1 PINT (16 FLUID OUNCES) (.473 Liter)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: KEEP OUT OF REACH OF CHILDREN.
CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear eye protection (face shield or goggles), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL
Store in original container in an area inaccessible to children or individuals unfamiliar with the use of the product. Do not use with soap or synthetic or other disinfectants. Do not reuse empty container. Discard in trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection. For disinfecting, a pre-cleaning step is required.

PREPARATION OF DISINFECTANT USE SOLUTION: Mix one tablespoon of MAR-V-CIDE in one quart of water, or make stock solution by mixing two ounces (1/4 cup) MAR-V-CIDE in one gallon of water.

DISINFECTION DIRECTIONS: Apply use solution to hard, non-porous surfaces such as floors, walls, cabinets, sinks, counters, tables, chairs, and telephones, thoroughly wetting the surfaces with a cloth, mop, or sponge. Treated surfaces must remain wet for 10 minutes, then allow to air dry. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution after each use.

BARBER/BEAUTY SALON INSTRUMENTS AND TOOLS: Immerse pre-cleaned barber/beauty salon instruments and tools (such as combs, brushes, razors, scissors, blades, and manicure instruments) in a use solution of 2 oz. per one gallon of water (refer to preparation of use solution) for 10 minutes. For heavily soiled instruments and tools, a preliminary cleaning is required. Rinse thoroughly and dry before use. A fresh solution must be prepared daily or more often if solution becomes diluted or soiled.

DISINFECTION OF HARD, NON-POROUS SURFACES IN PEDICURE FOOT SPA UNITS: After using whirlpool foot spa, drain the water and thoroughly clean all hard, non-porous surfaces with soap or detergent. Refill the pedicure foot spa with fresh water to just cover the intake valve. Add 2 ounces of this product for each gallon of water at this point. Briefly start the pump to circulate the solution. Turn off the pump. Wash the unit sides, seat of chair, and any/all related equipment with sponge, brush, or swab. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the pedicure foot spa and rinse any/all cleaned surfaces with fresh water.

FUNGICIDAL DIRECTIONS: This product is an effective fungicide against Trichophyton mentagrophytes, agent that causes Athlete's foot fungus, in areas such as locker rooms, dressing rooms, shower, and bath areas. Apply use solution to hard, non-porous surfaces such as floors, walls, cabinets, sinks, counters, thoroughly wetting the surfaces with a cloth, mop, or sponge. Treated surfaces must remain wet for 10 minutes, then allow to air dry. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution after each use.

PERFORMANCE: When tested with full immersion for 10 minutes in solution created as above, MAR-V-CIDE is effective as a disinfectant, germicide, bactericide, fungicide, and virucide* against:

Salmonella choleraesuis	Herpes Simplex Type 1 and Type 2*
Staphylococcus aureus	Trichophyton mentagrophytes
Pseudomonas aeruginosa	Human Immunodeficiency Virus Type 1 - (HIV-1) (AIDS virus)*
