**NEW!**

PERMACIDE is a biostat with residual action which stops the growth of infectious organisms.

**USES:**

Permacide is especially adapted to impart self-sanitizing action that continually reduces the number of bacteria as long as it remains on the surface. It protects against *Escherichia coli*, *Staphylococcus aureus* and group A alpha and beta hemolytic *Streptococcus*.

**DIRECTIONS:**

Add 2-5% by weight of active ingredients, according to directions of the manufacturer.

*See technical brochure for detailed recommendations and directions . . . for manufacturing use only.*

**NET CONTENTS:** 5 gallons

Rinse empty container thoroughly with water and discard it.

Environmental Protection Agency Reg. No. 8383-1

**CAUTION:**

Keep out of reach of children.
