Spartanburg, SC 29303

Subject: Label Amendment: Emerging Viral Pathogens Claim
Product Name: Sporidicin (Brand) Disinfectant Solution (Spray)
EPA Registration Number: 8383-3
Application Date: 02/24/2020
Decision Number: 561067

Dear Ms. Phalen:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.

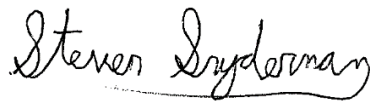

3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is large non-enveloped, enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Norovirus (Feline calicivirus) is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test

Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact the disinfectants list at disinfectantslist@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Steven Snyderman". The signature is written in a cursive style with a horizontal line underneath the name.

Steven Snyderman, Acting Product Manager 33

GENERAL MARKETING CLAIMS

- (All)(Multi-) purpose
- (All)(Multi-) surface
- Cleans and remove(s) (stubborn) (stuck on) (dirt) (messes)
- Also available (in) (as) (wipes) (towelettes)
- Leaves a clean, fresh (scent) (fragrance)
- Leaves a hospital clean (scent) (fragrance)
- Leaves your (bathroom) (kitchen) fresh and clean
- Ready to use
- For (light touch ups) (quick clean-ups) (in one easy step)
- For household surfaces (all around the house)
- For food processing use
- For residential use
- Great for cleaning around the toilet
- Handles daily clean-ups
- Heavy (light) duty jobs
- Make (your job) (cleaning) (easier) (easy)
- No mixing
- Saves time
- The smart (way to) clean (and disinfect)
- Does not contain phthalates
- Does not contain ortho-phenylphenol [found on Prop 65 List in (California)(CA)]
- Deodorizing activity for up to 6 months (if not removed from surface(s)).
- Provides bacteriostatic activity against odor-causing bacteria for up to 6 months on hard surfaces including (plastics) (latex) (vinyl) (glass) (treated wood) (metal) (glazed porcelain) (glazed tile) (paint) (if not removed from surface(s)).
- An effective cleaner, disinfectant, and active deodorizer* for instruments and equipment and on pre-cleaned, hard, non-porous surfaces in (health/hospital treatment and patient rooms) (hospitals) (medical offices) (dental offices) (operating rooms) (schools) (universities) (trauma centers) (crime scenes) (prisons) (ambulances)

- (hotels/motels) (restaurants) (boats)(planes) (buses) (the home) (fitness centers) (fitness arenas) (airports) (and other industrial/commercial settings) (gym centers) (health facilities) (spas) (wellness centers) (physical and rehabilitation facilities) (clinics) (transportation service vehicles (Optional -including buses, boats, trains, and planes)) (nail salons) (restoration industries (optional) including water, fire, and mold restoration) (laboratories) (Industrial clean rooms) (controlled/critical environments) (pharmacies) (compounding pharmacies) (veterinary environments) (military facilities)
- Self-sanitizing against bacteria and fungi.
 - Reduces hazards of cross contamination on treated surfaces.
 - Sanitizing on non-food contact hard surfaces
 - Non-abrasive formula, Non-staining
 - For (institutional,) (industrial,) (household,) (hospital,) (and farm premise) use.
 - For (select one or more) - (medical and dental equipment) (beds) (surgical carts) (countertops) (mannequins) (telephones) (cellular/mobile phones) (keyboards) (portable digital music players) (furniture) (wheelchairs) (walkers) (sinks) (floors) (walls) (tables) (light switches) (linen hampers) (shower stalls) (toilet seats) (trash containers) (damp and musty areas) (animal areas) (kitchen counters) (stovetops) (the outside of microwaves) (refrigerators and other similar appliances) (finished hardwood) (cabinets) (diaper pails) (trash cans) (glazed tile) (tubs) (changing tables) (chrome) (bathrooms) (public restrooms) (door knobs) (faucets) (patio furniture) (cribs) (car interiors) (computers) (hand rails) (door frames) (urinals) (desks) (exercise equipment) (yoga mats) (exercise balls) (hard surface air ducts) (dining room surfaces)
 - (Optional Brand Name) Disinfectant Solution (Spray) is germicidal when used as directed for disinfection (, but differs in composition from other (Brand Name) products).

For residential, institutional, hospital, and farm premise use.

(Label will include organisms either in list format as seen here, or as Table 1 below.)

- **Virucidal****: Avian Influenza A virus (H5N1), Avian Influenza A virus (H9N2), Cytomegalovirus, Herpes simplex virus types 1 and 2 (oral, ocular, and genital), HIV-1 (AIDS Virus). [See (Brand Name) Bulletin No. 303 for special instructions for cleaning and decontamination against HIV-1(AIDS Virus) of surfaces/objects soiled with blood/body fluids], Human Coronavirus, Influenza A virus (H1N1), Influenza A virus (H3N2), Norovirus, Parainfluenza type 3 virus, Polio Type 1 virus, Vaccinia virus.
- **Bactericidal**: Acinetobacter baumannii, Escherichia coli, Methicillin resistant Staphylococcus aureus (MRSA), Mycobacterium bovis (surrogate for mycobacterium tuberculosis (TB)), Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Streptococcus pyogenes, Streptococcus salivarius, Vancomycin resistant Enterococcus faecium (VRE).
- **Fungicidal**: Aspergillus brasiliensis, Penicillium variable, Trichophyton mentagrophytes (Athlete's Foot fungus).

Kills/Eliminates: (Optional organisms located in Table 1)

(Brand Name) Bulletin Number 303 (US EPA registration # 8383-3)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS AGAINST HIV-1 (AIDS VIRUS)

KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/ BODY FLUIDS in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/ body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

Personal Protection: Disposable latex or vinyl gloves, gowns, facemasks, and eye coverings as appropriate, must be worn during all cleaning of body fluids, blood, and decontamination procedures.

Cleaning Procedures: Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of Sporicidin Disinfectant Solution (or other brand name).

Contact Time: Allow surface to remain wet for 1 minute to kill HIV-1. Disposal of Infectious Material: Blood/body fluids should be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

(MOLD REMEDIATION MARKETING CLAIMS) (all optional)

- This product inhibits the growth of damage and odor-causing bacteria and fungi on treated articles and surfaces, such as construction materials.
- This product is used to protect treated articles from decay, mold or mildew.
- This product inhibits bacterial growth on moist surfaces and deodorizes by killing microorganisms that cause offensive odors.
- This product inhibits the growth of mold and mildew and their odors when used as directed.
- This product kills mold and mildew when used as directed.

(SPA/RECREATIONAL ESTABLISHMENT CLAIMS) (all optional)

This product is used to treat the following surfaces in a (Health) (Spa)(Day Spa) (Recreational) Establishment(s):

- Bathroom and kitchen surfaces, sinks, chairs, stools, mats, trays, massage tables, tables, shower stalls, bathtubs, ice machines, and tub surfaces.
- Glass, metal, stainless steel, glazed ceramic, glazed porcelain, granite, marble, plastic, sealed limestone, sealed slate, sealed stone, sealed terracotta, sealed terrazzo, chrome, and vinyl.
- Enameled surfaces, painted woodwork, Formica®, vinyl and plastic upholstery.
- Foundations, steps, plumbing fixtures, finished baseboards, and window seals.
- Tables/chairs, desks, bed-frames, lifts, washable walls, cabinets, doorknobs, garbage cans, cuspidors, and spittoons.
- Exhaust fans, refrigerated storage and display equipment, coils and drain pans of air conditioning, refrigeration equipment and heat pumps.

- Large inflatable non-porous plastic and rubber structures: animals, promotional items, moonbounces, slides, obstacle course, play and exercise equipment.
- Hard nonporous surfaces of picnic tables and outdoor furniture
- Telephones and telephone booths
- High chairs
- Drinking fountains
- Shower stalls, shower doors and curtains, bathtubs and glazed tiles, chrome plated intakes, toilet bowls, toilet bowl surfaces, urinals, empty diaper pails, portable and chemical toilets, latrine buckets, glazed porcelain and glazed tiles restroom fixtures.
- Ultrasonic baths, whirlpools, and whirlpool bathtubs
- This product may be used as a cleaner and deodorizer on washable fabrics during a laundry process. Examples include:
 - i. Diapers
 - ii. Napkins
 - iii. Tablecloths
 - iv. Curtains
 - v. Draperies
 - vi. Hospital and institutional linens
 - vii. Commercial linens
 - viii. Hotel/motel linen
 - ix. Athletic apparel
 - x. Athletic clothing

(FARM PREMISES, ANIMAL PENS, POULTRY HOUSES, and VETERINARY CLINIC ESTABLISHMENT CLAIMS) (all optional)

This product is used to treat the following surfaces in (farm premises,) (animal pens,) (poultry houses,) (and) (veterinary clinics):

- Kennels, kennel runs, cages, kennel/cage floors, and conductive flooring
- Hatchers, setters, trays, racks, egg flats, walls, floors, ceilings, chick boxes, egg cases, vans and trash containers

(CLEANING/SANITIZING MARKETING CLAIMS:) (all optional)

- This product cleans, deodorizes, and controls the growth of damage and odor-causing organisms.
- This product (maximizes) (improves) labor results by effectively controlling odors.
- This product is a ready-to-use product and can be applied with a cloth, sponge, mop and bucket, trigger sprayer, pressure sprayer, or pump sprayer.
- This product neutralizes musty odors and tough odors from smoke.
- This product is specially formulated to effectively eliminate offensive odors caused by mold and mildew.
- Eliminates odors caused by bacteria and fungi.

- For use as a mold preventative or remediation treatment in areas where mold can or has been a problem:
 - Commercial and residential buildings.
 - Hospitals, nursing homes.
 - EMS & fire facilities.
 - Day care centers and nurseries.
 - Life care retirement communities, and home healthcare institutions.
 - Restaurants, bars, cafeterias, institutional kitchens, fast food operations and food storage areas.
 - Supermarkets, convenience stores, retail and wholesale establishments, and laundries.
 - Manufacturing facilities.
 - Food establishments, coffee shops, doughnut shops, bagel stores, pizza parlors, liquor stores, and ice cream parlors
 - Police stations, courthouses, correctional facilities, jails, prisons, municipal government buildings, forensic laboratories, animal research and lab facilities.
 - Institutional facilities, laboratories, factories, business and office buildings, restrooms, hotels and motels.
 - Public restrooms, public facilities, shower rooms, shower stalls, and bathrooms.
 - Hotel, motels, and dormitories.
 - Kitchens & bathrooms.
 - Institutions, schools and colleges, churches, classrooms, community colleges, universities, athletic facilities and locker rooms, exercise rooms, exercise facilities, gyms, and gymnasiums.
 - Heath clubs and day spas.
 - Recreational facilities, sports arenas, and sports complexes.
 - Veterinary clinics, animal life science laboratories, kennels, dog/cat animal kennels, breeding and grooming establishments, pet animal quarters, zoos, and other animal care facilities.
 - Boats, ships, and barges, and cruise lines.
 - Commercial florist and flower shops.
 - Basements, crawl spaces, cellars, bedrooms, attics, and living rooms.
 - This product may be used as a cleaner and deodorizer or for water/flood damage clean up, sewage backflow cleaning, and trauma scene cleaning.
 - Enameled surfaces, (painted) (finished) woodwork, vinyl and plastic, and upholstery.
 - Foundations, stops, plumbing fixtures, finished baseboards and windowsills, washable walls, tables, floors, and cabinets.
 - Studs, wallboards, joists, beams, trusses, underlayment, sub-flooring, wood framing, plywood, oriented strand board, ceilings and ceiling tiles.
 - Refrigerated storage and display equipment.

(MANDATORY LANGUAGE:)

DIRECTIONS FOR USE: It is a violation of U.S. Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT DILUTE OR MIX WITH OTHER CHEMICALS

Prior to treatment, check acceptability of fragrance with occupants of the venue.

PRECLEAN surfaces using (Insert Brand Name) Disinfectant Solution to remove soil and filth. Allow to air dry, or wipe dry with paper towel, cloth, mop, or sponge.

TO DISINFECT AND DEODORIZE items which cannot be immersed, (such as) (electrical panels), (cash registers), (door knobs), (handles), (seats), (dashboards), (and other “high touch” surfaces in and around) (farm equipment), (animal and poultry) (housing), (barns), (kennels), (breeding pens), (hatcheries), (trucks), (and vehicles,) thoroughly wet pre-cleaned surface with (insert brand name) Disinfectant Solution and allow surface to remain visibly wet for 10 minutes. Use as much solution as necessary for the treated area to remain wet for 10 minutes at room temperature (20°C/68°F or above) to kill listed bacteria and viruses. Surface must remain wet for 10 minutes to kill listed fungi.

(optional section) TO KILL, CLEAN AND PREVENT MOLD AND MILDEW: MOLD AND MILDEW CONTROL IN AND ON BUILDING MATERIALS, SUCH AS WOOD, STUDS, JOISTS, BEAMS, FLOORS, UNDERLAYMENTS, CEILINGS, WALL CAVITIES, ATTICS, CRAWL SPACES, PLYWOOD, OSB (ORIENTED STRAND BOARD), WALLBOARD, CONCRETE, PLASTER BRICK, AND MASONRY (CINDER) BLOCK CONSTRUCTION MATERIAL. This product is used to treat wooden building and construction materials such as wallboard, concrete, and masonry (cinder) block building materials to inhibit or prevent the growth of mold organisms when the materials are subjected to moist or wet environments. Before applying this product, visible mold growth must be removed, and the conditions favorable to mold growth must be identified and corrected. Keep children, pets, and livestock off treated areas until spray has dried following application.

Occupants including pets and livestock must be removed from the containment area prior to treatment. Use procedure stated above. Repeat application if new growth appears.

FOR FOGGING CLEAN ROOMS: See (Brand Name) Sporicidin Bulletin No. 301.

(optional section) TO CLEAN, DEODORIZE, SANITIZE AND REMOVE DEBRIS FROM CARPETS:

To Spot Clean: Blot or scrub area to be treated with (optional brand name) Disinfectant Solution to remove soiling. Wipe dry with clean cloth or towel.

To Deep Clean Carpets: Vacuum to remove loose dirt and soiling. Thoroughly moisten with product using coarse tip pressure sprayer and rake or brush into nap. Clean treated areas using clean water extraction method, such as portable or truck-mounted

carpet cleaning machine. Allow to dry thoroughly prior to using. Always spot test in inconspicuous area prior to application for compatibility.

Deodorizing, Cleaning, and Sanitizing of Carpets:

To Deodorize, Clean, and Sanitize Carpets: can be used on most fabrics that can be cleaned with water-based cleaners. Not for use on wool or silk. Always test for color fastness and material compatibility in an inconspicuous area prior to use. Apply by sprayer, to ensure even coverage and allow for 10 minute contact time. Do not rinse; use hot water extraction wand to remove product from treated surfaces and then dry stroke carpet to remove excess moisture. Carpet can air dry or fans may be used if carpet needs to dry more quickly.

(optional section) FOR FOOD PROCESSING PLANTS: Follow pre-cleaning and disinfecting instructions outlined above to disinfect hard, non-porous surfaces and materials in food handling areas, including poultry and meat packing facilities, slaughter houses, etc. All surfaces and materials that come in contact with food must be rinsed with potable water prior to use.

(optional section) FOR SPA/RECREATIONAL ESTABLISHMENTS: This product is not a sterilant or high level disinfectant for salon instruments and utensils, and does not replace sterilization processes. For items that cannot be immersed, such as bathrooms and kitchen sinks, chairs, stools, mats, trays, massage tables, tables, shower stalls, bathtubs, ice machines, tub surfaces, and other “high touch” non porous surfaces, thoroughly wet pre-cleaned surface with (insert brand name) Disinfectant Solution and allow surface to remain wet for 10 minutes.

(optional section) FOR HOSPITAL DISINFECTION: This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly to the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

(optional section) FARM PREMISE DISINFECTION:

FOR FARM EQUIPMENT, ANIMAL AND POULTRY HOUSING, BARNs, KENNELS, BREEDING PENS, HATCHERIES, TRUCKS AND OTHER VEHICLES: Remove poultry, animals, feed, water, trucks, coops and crates from premises. Remove litter droppings from floors, walls, and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply Sporicidin Disinfectant and allow to remain wet for ten minutes. Ventilate buildings, coops, and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and water appliances with soap or detergent, and rinse with potable water before reuse. Disinfection of equipment: Apply Sporicidin Disinfectant to cover all surfaces for 10 minutes. Allow to air dry. For Avian Influenza A, the use is only for

Contec, Inc/Sporicidin Division
Spartanburg, SC 29303
EPA Reg. No. 8383-3
Edited on February 24, 2020
Proposed Master Label

surfaces which are not conducive to treatment by immersion or excess liquid (e.g., cages, equipment tables, and laboratory benches, facet handles, door knobs, and similar “high touch” surfaces.) For uses in hospital/medical/health facilities, the directions for hospital disinfection must be followed. For all other use sites, general disinfection directions must be followed.

The Following Language is Intended to be Used in Accordance With the US EPA “Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels”

Emerging Viral Pathogens

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Norovirus (Feline calicivirus)
Large, non-enveloped virus	Norovirus (Feline calicivirus)

Sporicidin (Brand) Disinfectant Solution (Spray) has demonstrated effectiveness against viruses similar to [name of emerging enveloped or large, non-enveloped virus] on hard, non-porous surfaces. Therefore, Sporicidin (Brand) Disinfectant Solution (Spray) can be used against [name of emerging enveloped or large, non-enveloped virus] when used in accordance with the directions for use against Norovirus (Feline calicivirus) on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging enveloped or large, non-enveloped virus]. Sporicidin (Brand) Disinfectant Solution (Spray) kills similar viruses and therefore can be used against [name of emerging enveloped or large, non-enveloped virus] when used in accordance with the directions for use against Norovirus (Feline calicivirus) on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

STORAGE AND DISPOSAL (mandatory)

Do not contaminate water, food or feed by storage or disposal.

(Household/Residential):

STORAGE AND DISPOSAL Store at room temperature. Nonrefillable container. Do not reuse or refill this container. Discard empty container in regular trash or offer for recycling if available.

(Commercial/Institutional):

PESTICIDE STORAGE: Store at room temperature.

PESTICIDE DISPOSAL: Dispose of in accordance with local regulations. Do not dispose of in storm drain systems.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

(Optional: For emergency medical treatment, you may contact the National Pesticide Information Center at 1-800-858-7378 between the hours of 6:30am to 4:30pm (PT) seven days a week. During all other times, call the poison control center at 1-800-222-1222)

(mandatory)

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID: If in eyes, remove contact lenses. Hold eye open and slowly rinse with water. If irritation persists for more than 5 minutes continue rinsing and consult a physician or poison control center.

Not for personal cleansing.
