OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

April 15, 2021

Emily Phalen Regulatory Affairs Contec, Inc. 525 Locust Grove Spartanburg, SC 29303

Subject: PRIA Label Amendment – Label Amendment with efficacy data for review

Product Name: PeridoxRTU (Brand) One-Step Germicidal Wipes

EPA Registration Number: 8383-14 Application Date: 11/25/2020

Action Case Number/Decision Number: 00217527/568300

Dear Ms. Phalen:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Page 2 of 2 EPA Reg. No. 8383-14 Action Case No./Decision No. 00217527/568300

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jack Hall by phone at 703-347-8647, or via email at hall.john.j@epa.gov.

Sincerely,

Demson Fuller, Product Manager 32 Regulatory Management Branch I Antimicrobials Division (7510P) Office of Pesticide Programs

Poliovirus Type 1	5 minutes
Rhinovirus	5 minutes
Fungicidal Claim	
Aspergillus niger (non-porous surfaces)	1 minute
Candida albicans	1 minute
Trichophyton mentagrophytes	1 minute
Tuberculocidal Claim (1 minute)	
Mycobacterium tuberculosis var. bovis	1 minute

DISPENSING DIRECTIONS:

To open: Remove lid by twisting counter-clockwise and pulling up. [Discard inner seal from canister.] [Replace lid firmly.] [Close lid tightly].

To thread: Locate [(wipe)(towel)(towelette)(cloth)] at the center of the roll and insert corner of [(wipe)(towel)(towelette)(cloth)] through opening in lid. Twist corner of first [(wipe)(towel)(towelette)(cloth)] into a point and thread through the opening in the lid. Pull 1" (2.5cm) of [(wipe)(towel)(towelette)(cloth)] through the opening. [Replace lid firmly.][Close lid tightly] [by twisting clockwise to lock lid into position].

To Dispense: Dispense by pulling [(wipes)(towels)(towelettes)(cloths)] through the opening. Dispenses one [(wipe)(towels)(towelettes)(cloths)] at a time. [Remaining [(wipes)(towels)(towelettes)(cloths)] automatically feed through for next use.] Close [top] [lid] tightly [between uses] [to prevent moisture loss].

{optional language for rigid top flexible flat pack/or rigid top tub}: Open top. Remove desired amount of [(wipes)(towels)(towelettes)(cloths)]. Close top when finished [to prevent moisture loss].

{optional language for peel-back flexible flat pack}: Carefully pull back [(seal)(label)]. Remove needed [(wipes)(towels)(towelettes)(cloths)]. Reseal between uses [to prevent moisture loss].

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[PRODUCT NAME] can be used for disinfection and sanitization

[To Clean, Disinfect and Deodorize] [Combination Disinfection and Cleaning]: For nonfood contact surfaces only.

First, use a [PeridoxRTU¹ (Brand) One-Step Germicidal Wipe] to remove heavy soil if present, or if disinfecting against *C. difficile* spores. Then, use a new, clean wipe to disinfect. [Fold wipe [in half] to form a palm-sized [XX" x XX"] pad]. Thoroughly wipe area to be disinfected at room temperature [(20-24°C)]. Work from clean sections to dirty sections, refolding wipe periodically to expose a clean wipe surface. Treated area must remain visibly wet for a minimum of 3 minutes for sporicidal activity and non-enveloped viruses, 60 seconds for tuberculocidal and fungicidal activity, and 30 seconds for bactericidal activity and enveloped viruses. [Refer to chart for effective [(kill)(contact)] time of target organisms. Wipe target area enough to remain visibly wet for the specified kill time. Let air dry. [No rinsing required.] Do not reuse [or rewet] dried out wipes.

{The following graphics illustrating use directions may be included on the label and will only be used if applicable to the packaging the label would appear on}

This product is <u>not</u> to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. [For use on non-critical surfaces only]. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

[S]For *C. difficile* Sporicidal Disinfection:]

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks [or] [and] eye covering.

Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with a [(wipes)(towels)(towelettes) (cloths)]. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths. Do not discard used wipes into toilet bowls.

Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/waste are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

{optional additional directions for use}

Ultrasound transducers and probes:

For use on external surfaces of ultrasound transducers and probes only. Pre-clean gel from external surface of ultrasound transducer or probe to be disinfected with a clean (wipe)(cloth). Wipe probe with [PeridoxRTU¹ (Brand) One-Step Germicidal Wipe]. Treated areas must remain visibly wet for a minimum of 3 minutes. Let air dry [No rinsing required.] Do not reuse dried out wipes.

[Specific Instructions for Blood Borne Pathogens:] KILLS HIV-1, HEPATITIS B VIRUS (HBV) AND HEPATITIS C VIRUS (HCV) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/object likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus, and Hepatitis C Virus.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS Virus), [HEPATITIS B VIRUS] HBV and [HEPATITIS C VIRUS] HCV OF SURFACE/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: {select one of the statements} [Clean up should always be done wearing protective gloves, gowns, masks and eye protection.] [Disposable latex or vinyl gloves, gowns, face masks, or eye coverings as appropriate, must be worn during all cleaning of body fluids, blood, and decontamination.]

Cleaning Procedure: Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product.

Contact Time: {select one of the first two statements} [Surface must remain visibly wet for 30 seconds to kill HIV-1, HBV and HCV.] [Leave surface visibly wet for 30 seconds to kill HIV-1, HBV and HCV.] Use contact times listed for all other organisms claimed. {or} [Consult Chart for all other contact times.]

Disposal of Infectious Material: Blood/body fluids should be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

Areas of Use:

Disinfectant for use on hard, non-porous surfaces in: {sites will be selected from the following} Animal Life Science Laboratories, Bathrooms, Churches, [ISO Class (number)] Cleanrooms, (Sterile) Compounding Facilities, Clinics, Colleges, Cosmetic Processing Facilities, Critical Care Units, Cruise Ships, Dialysis Centers, Funeral Homes, Dental Offices, Health Clubs, Hospices, Hospitality Establishments, Hospitals, Home Health Care, Hotels, Industrial Facilities, Institutions, Laboratories, Nail Salons, Nursing Homes, Medical Device Manufacturing, Morgues, Office Buildings, Oncology Centers, Outpatient Centers, Pharmaceutical Production Facilities, Pharmacies, Physical Therapy Locations, Physicians Offices, Public Facilities, Radiology, Recreational Facilities, Rehabilitation Centers, Research Laboratories, Retail and Wholesale Establishments, Shelters, Storage Areas, Surgery Centers, Locker Rooms, Long-Term

Care Facilities, The interior areas of the following Transport Vehicles: including ships, airplanes, automobiles, trucks, ambulances, and trains.

(For General Uses – Medical and Dental)

For Use in Health Care, [Dental], [Medical] [Facilities] and [Hospitals][Nursing Homes][clinics]{or insert any of the Medical/Dental Institutional Use sites from table 4}

This product is a one-step (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing {insert any soil from table 1} found in {insert any of the Medical/Dental Institutional Use sites from table 4}.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: {insert any surface material from table 2} associated with [(high)(hand)(multi)] touch environmental surfaces [floors], [walls], [ceilings] – {or insert any Medical/Dental hard non-porous surface from table 3} – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It (also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Veterinary Use)

For Use in Veterinary clinics, [Animal] [Premises] [facilities] [such] [as] [Pet (stores) (shops)], and [Animal [Life Science] Laboratories] [Animal Housing] [Animal Quarters and Kennels] (or insert any of the Veterinary Institutional Use sites from table 4} This product is a one-step germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing {use any soil from table 1} found in [Animal] [Premises] [facilities] [such] [as] {insert any of the Veterinary Institutional Use sites from table 4}. This product [or product name] is designed for use on hard, non-porous environmental surfaces: {insert any surface material from table 2} associated with hand touch environmental surfaces, [floors], [walls], [ceilings] – {or insert any Veterinary hard non-porous surface from table 3} – or – any hard non-porous washable (nonfood contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It (also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Miscellaneous Use)

For Use [in] [on] [at] [Public areas], [Retail Businesses], [Office Buildings], [Educational Institutions], [Public Transportation System(s)], [Transportation Terminals], [Lodging Establishments], [Athletic/Recreational Facilities], [Non-food handling areas of Food Service Establishments/Restaurants] and Manufacturing

facilities] [such as] {or insert any of the Miscellaneous Institutional Use site from table 4} This product is a one-step germicidal disinfectant (detergent) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for use on hard, non-porous environmental surfaces

[Critical Care Areas]: {sites will be selected from the following} CCU, Emergency Rooms, ICU, Med-Surg, Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU), [and] Surgery.

[For Use on] [Disinfection of] Surfaces in Pharmaceutical and Cosmetic Processing Facilities:

This product {or product name} is recommended for use on hard, non-porous environmental surfaces such as

floors, walls and processing equipment in pharmaceutical and cosmetic processing facilities [Pharmaceutical compouding and pharmaceutical manufacturing], [Controlled Environments such as cleanrooms with ISO classifications].

[Use Sites]: [May be used on hard non-porous surfaces of] *{surfaces will be selected from the following}* autoclaves, bed railings, blood glucose monitors, Biological Safety Cabinets (BSCs), Biosafety Cabinets (BSCs), Restricted Access Barrier Systems (RABS), Closed Restricted Access Barrier Systems (C-RABS), Open Restricted Access Barrier Systems (O-RABS), Mobile Cleanrooms, Half Suit Isolators, cabinets, (cleanroom) carts, chairs, closets, controlled environments, counters, countertops, desks, exam tables, exteriors of (refrigerators)(freezers), furniture, garbage cans, glove boxes, gurneys, Isolator Hood surfaces, isolettes, infant incubators and care cribs, IV poles, operation tables, pass through doors, door handles, doorknobs, patient room beds, phlebotomy trays, Primary Engineering Controls (PECs), PVC tubing, recycling bins, Secondary Engineering Controls (SECs), sterile compounding hoods, stethoscopes, stretchers, tables, bathrooms, sinks, faucets, toilet seats [and rims], towel dispensers, hand railings, lamps, light switch panels, stall doors, bath tubs, showers, hampers, tiled walls, telephones, door knobs, vanities, non-porous shelves, display cases, walls, [and] work surfaces.

For Use as a Bowl Cleaner/Disinfectant in Toilet Bowls:

- 1. Pre-clean heavily soiled areas.
- 2. Empty toilet bowl by forcing water through the trap. Use one wipe on exposed surfaces in toilet bowl.
- 3. Wipe entire surface area, especially under the rim.
- 4. Allow entire surface to remain wet for one (1) minute.
- 5. Flush toilet. Discard wipe in [(trash reciptical) (garbage) (garbage can)]. Do Not Flush Wipe In Toilet.
- 6. Use [(fresh) (new)] wipe for high touch surfaces found on toilet.
- 7. Discard used wipes in [(trash reciptical) (garbage) (garbage can)]. Do Not Flush Wipe In Toilet.

Hard non-porous external surfaces of: {surfaces will be selected from the following} ambulance equipment, diagnostic equipment, dialysis machines, mammography equipment, patient monitoring equipment, respiratory equipment, ultrasound transducers and probes, [and] patient support and delivery equipment.

[PeridoxRTU¹ (Brand) One-Step Germicidal Wipe] [is compatible with] [will not harm] (surfaces will be selected from the following) acrylic, aluminum, brass, copper, Corian®, glass, glazed porcelain, glazed tile, [(High-Density Polyethylene)(HDPE)], laminate flooring and countertops, [(Liquid Crystal Display)(LCD)] screens, [(Low-Density

Polyethylene)(LDPE)], medical tubing, nickel, painted surfaces, polycarbonate, polypropylene, polyurethane varnish, [Polyvinyl Chloride] [PVC], silicone rubber, stainless steel, vinyl, vinyl rubber, and zinc alloy.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clohing. Wear protective eyewear such as goggles, face shield, or safety glasses. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: This product contains an oxidizing agent. Avoid contact with other sanitizers, cleaners, or organic substances. Do not store near heat or open flame.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

FOR EMERGENCY MEDICAL INFORMATION [CALL TOLL FREE 1-800-222-1222 {in the United States}][CALL LOCAL EMERGENCY NUMBER]

Storage and Disposal To be reviewed based on packaging chosen

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: {select at least one of the following statements} Store [at room temperature] [between 20 – 25 [degrees][°] Celsius] [68 – 77 [degrees][°] Fahrenheit]. [Store this product in a cool, dry area away from direct sunlight and heat.] [Store in original container in areas inaccessible to children.] [When not in use keep lid closed to prevent moisture loss.]

Not a baby wipe.

The Following Language is Intended to be Used in Accordance With the US EPA "Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels"

Emerging Viral Pathogens

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- -Enveloped Viruses
- -Large Non-Enveloped Viruses

For an emerging viral pathogen that is a/an	follow the directions for use for the following organisms on the label:
Enveloped virus	Feline Calicivirus (ATCC VR-782) (surrogate for Norovirus)
Large, non-enveloped virus	Feline Calicivirus (ATCC VR-782) (surrogate for Norovirus)

Per EPA "Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels".

Statements intended for technical literature, "1-800" consumer information services, social media sites and company websites (non-label related). Information is NOT to appear on marketed product labels. One or both statements below may be used.)

[Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [porous and/or non-porous surfaces]. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information.
