GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N)	15
1.7% Ammoniacal Nitrogen	
12.4% Total Nitrogen	
4.4% Water Insoluble Nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	15
Soluble Potash (K ₂ O)	15

- **WEED AS YOU FEED**
The Andersons WEED & FEED provides an effective control for broad-leaved weeds such as dandelion, plantain, buckhorn, chickweed, wild carrot, dock, sheep's pursue and many others.
- While killing undesirable weeds, Andersons WEED & FEED makes your lawn grow thick and green. This formulation delivers one-third of the total available nitrogen from slow release nitrogen having nitrogen (N-46-74-E "17").
- The material is dustless and free-flowing through your spreader.
- **ECONOMICAL**
This bag (22 lbs.) will cover 5,000 sq. ft. (100 ft. x 50 ft. — 5,000 sq. ft.).
- Easy weed spotting and spraying.

DIRECTIONS

Follow Directions — Use soil to be treated with broadcast, green, seed-free grass.
When to Apply — Apply Andersons WEED & FEED anytime during the growing season. HOWEVER, CONTROL WILL BE MORE COMPLETE IF APPLICATION IS MADE WHEN TEMPERATURE IS ABOVE 60°. WEED CONTROL IS THROUGH THE LEAVES NOT THE SOIL, AND SO IF LAWN IS DAMP FROM RAIN, DEW OR WATERING, THE LAWN WEED KILLER WILL CLING TO THE LEAF AND BE MORE QUICKLY ABSORBED.

SPREADER SETTINGS

Roll	3	Adjuster	20
Adjuster Wheel	40	Shut	5
Lawn Density	95	Cycle	30

How to Apply — First determine the area of lawn to be covered (100 ft. x 50 ft. — 5,000 sq. ft. use 1 bag or 150 ft. x 100 ft. — 15,000 sq. ft. use 2 bags). Use a clean, properly adjusted spreader. Cover entire area rather than spot treat. Avoid any skips or clumps by overlapping spreader wheel tracks.

- Treated areas can be seeded 30 days after Andersons WEED & FEED is applied.
- On newly seeded areas, wait until grass has been cut one or two times before application.
- For children's areas, by law or State treatment four weeks apart.
- Do not apply to desirable clovers, creeping bentgrass, and dandelions. Keep away from flowers, ornamentals and shrubs.
- Do not water, mow or use lawn for 24 hours after applying. Watering or mow soon after application will wash the material off the foliage making the weed control ineffective. WATERING DOES NOT, HOWEVER, DESTROY THE FERTILIZER VALUE.
- Spores from this product may injure susceptible plants in the immediate vicinity. Avoid spill to desirable plants.

CAUTION

Avoid prolonged contact with skin. Avoid contact with eyes. Do not contaminate food, feedstuff or drink. Do not store near acid, fertilizer, insecticides or fungicides. Keep out of reach of children. Wash thoroughly after using. Do not reuse container. Destroy by burying in a safe place away from water supplies. Do not burn. Do not use container water used for irrigation or domestic purposes. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

NOTICE

If not used as directed, either before or after, or applied, according to the use of this product, the user assumes all risk of fire or damage arising from use, handling and the effects thereof.
