

SEBRELL GRANULAR

SWIMMING POOL

EPA REGISTRATION NO. 8454-4

CHLORINATOR

AVAILABLE CHLORINE - - - 65%

Active ingredient calcium hypochlorite	65%
Inert ingredients	35%
	<hr/>
	100%

DANGER: KEEP OUT OF REACH OF CHILDREN

May be Fatal or Harmful if Swallowed. Strong Oxidant. May produce severe chemical burns.

Do not get dust in eyes, on skin or on clothing. Do not use strong acids, ammonia or other bowl cleaners with this product. To do so will release hazardous gases.

FIRST AID: External—In case of skin and eye contact, flush with plenty of water. If skin irritation persists, get medical attention. For eyes, get prompt medical attention. Internal—Give milk, water, or egg whites. Call Physician immediately.

THIS PRODUCT IS TOXIC TO FISH. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

ADD MATERIAL ONLY TO WATER. DO NOT MIX WITH OTHER CHEMICALS. MAY CAUSE FIRE OR EXPLOSION. RINSE EMPTY CONTAINER WITH WATER AND DISCARD IT.

AN EASY WAY TO FEED SEBRELL CHLORINATOR GRANULAR TO YOUR POOL

Place SEBRELL granular calcium hypochlorite chlorinator in a special plastic feeder basket retail price 95c. Holds up to 1 pound of chlorine or less and is made of long lasting plastic with a 2 ft. polyethylene rope attached thereto.

1. Place Sebrell granular chlorinator in basket and place in surface skimmer. All day long, while chlorine is dissolving, you are killing bacteria and algae as the chlorinated water from surface skimmer is mixed with water from main drain. Your pool water is subjected to this deadly shock before returning to the pool. This method cleans filter grids and lowers pressure inside tank increasing flow of water and prolonging filter cycle. Run filter 8 hours or longer after placing basket in skimmer.

This chlorinator effectively kills most bacteria when a chlorine residual of .6 to 1.0 PPM is maintained.
