

# FX-3 ROOT KILLER

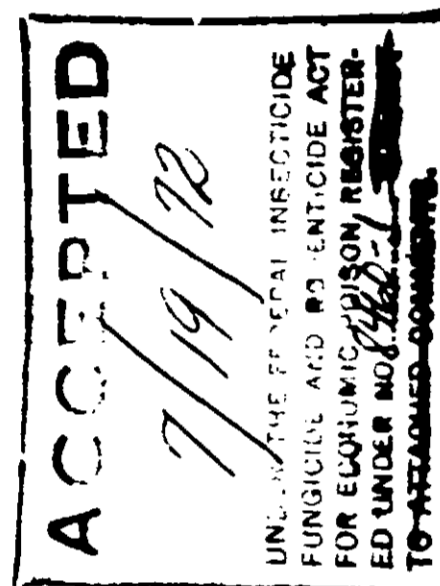

## WHAT IT IS...

The "crystalline" material with-in FX-3 ROOT KILLER, has for over 20 years, proven itself to be the most practical, and least expensive method known for the prevention of tree and shrub root growth penetration and obstruction.

FX-3 ROOT KILLER contains no caustics, lye, or acids.

FX-3 ROOT KILLER is not corrosive to sewer pipes leading to main trunk line or to the inlet-outlet pipes leading to or out of septic tanks or cesspools.

FX-3 ROOT KILLER is not harmful to the construction of a septic tank or cesspool, or the necessary digestive bacteria within.

# FX-3 ROOT KILLER

## WHAT IT DOES...

FX-3 ROOT KILLER will keep sewer pipes clear by destroying tree or shrub root obstruction, thereby preventing the formation of deadly and combustible gases.

FX-3 ROOT KILLER will kill tree or shrub roots in septic tank-cesspool drainage fields, thereby preventing foul, smelly odors and expensive digging.

FX-3 ROOT KILLER, because of its effective local killing action, will not harm trees or shrubs, or discolor a single leaf.

Recommended Usage: Twice a year.

# ROOT KILLER

for the destruction and prevention  
of tree and shrub root growth in  
**SEWER PIPES and Septic Tank .**  
**Cesspool DRAINAGE FIELDS**

**CAUTION**  
Keep Out of Reach  
of Children  
Harmful if Swallowed

**ACTIVE INGREDIENTS**  
Copper Sulphate (Cu SO<sub>4</sub>, 5H<sub>2</sub>O) ..... 99.0%  
(Copper as metallic ..... 25.2%)  
**INERT INGREDIENTS**..... 1.0%  
Total ..... 100.0%  
USDA Reg #8460-1

## DIRECTIONS:

FX-3 ROOT KILLER should be applied before going to bed or at a time when sink drainage and/or toilet flow is light.

**UNDER NO CIRCUMSTANCES SHOULD FX-3 ROOT KILLER BE APPLIED THROUGH SINK OR TUB DRAINS.**

## FOR SEWER PIPES

Pour the contents of this two pound package into the toilet bowl, approximately ½ lb. at a time and flush each time. After using entire package, flush water again to assure carrying of FX-crystalline material to root growth penetration or obstruction.

## FOR SEPTIC TANK DRAINAGE FIELDS

Best results may be obtained by applying FX-3 ROOT KILLER directly to the lateral field through the distribution box.

Contents: Two U.S. Pounds

# FX3 root killer

for the destruction and prevention of tree and shrub root growth in SEWER PIPES and Septic Tank • Cesspool DRAINAGE FIELDS

## HOW ARE ROOT OBSTRUCTIONS FORMED?

Trees and shrubs, like all plants, require food and liquid for survival and growth. They obtain these basic essential elements through their roots buried in the ground.

Roots that fail to receive sufficient food and water in their immediate area, because of the particular soil's inability to retain moisture, are forced to find their supply in some other area nearby. Thus, tree and shrub roots reach out and penetrate sewer pipes, and the septic tank-cesspool drainage field, which are rich in food and liquid.

can't wash dishes!  
can't use toilet!  
can't bathe!

**AVOIDS MESSY  
INCONVENIENCES**

**ELIMINATES  
FOUL ODORS!**

**STOPS COSTLY  
LAWN DIGGING!**
