# PROTEX

U.S.D.A. Reg. No. 8501-8

**PROTEX** is a decay control agent for use ~~principally~~ with apples. When used in the submersion dump tanks at recommended levels, **PROTEX** maintains control on mold ~~scavenger~~ activity.

ACTIVE INGREDIENTS:  
Sodium orthophenylphenate 20.0%  
INERT INGREDIENTS: 80.0%

**CAUTION:**  
**Keep Out of the Reach of Children**  
Avoid contact with skin and eyes. In case of contact wash skin or eyes with water. Harmful if swallowed. Avoid contamination of feed or food-stuffs. Avoid disposal of waste solution in a manner that will contaminate streams, ponds or any public water. Rinse empty container thoroughly with water and discard it.

### DIRECTIONS

1. Add one gallon **PROTEX** to each 40 gallons water in submersion dump tank.
  2. Submerge apples in use-solution for a minimum of 40 seconds (maximum time, approximately 5 minutes).
  3. Remove and rinse with water.
- \*Use automatic pH control and feed make up system.

Maintain minimum pH 11.5 in tank\*

NET CONTENTS: 1 GALLON (128 FL. OZ.)
