EFFECTIVE

DEADLINE excels in attracting slugs and snails. After feeding on DEADLINE, they become dehydrated and almost disappear.

LOW COST

DEADLINE is inexpensive to use. Applied properly, this bottle can make a "deadline" 1600 ft. long, enough for several applications.

~~32 fl. oz.~~  
To even  
big yards

EASY TO USE

DEADLINE is convenient, clean and easy to apply.

LONG LASTING

Neither rain nor watering will dissipate DEADLINE.

DIRECTIONS

FLOWERS & LAWNS . . . Flip-up spout and lightly squeeze a line of drops 3 to 4 inches apart, around flower beds and lawn edges. Apply any time, but preferably in early evening. Repeat applications as needed. When applying, occasionally turn bottle upright to allow air to enter bottle.

VEGETABLE GARDENS . . . Apply a line of drops 3 to 4 inches apart on soil between berry and vegetable plants. Do not apply DEADLINE directly on the plants.

USE EVERY DROP: When DEADLINE stops flowing, add 3 table-spoons water to bottle, close flip-up spout, shake well and use it all.

WARNING

May be fatal if swallowed. Avoid contamination of food. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Do not apply directly on plants that are to be used as food. KEEP OUT OF REACH OF CHILDREN AND PETS.

Do not reuse container: dispose of when empty.

This product is toxic to birds and other wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Apply this product only from container as specified on this label.
