VEG KILL 25

LIQUID VEGETATION KILLER FOR TOTAL VEGETATION CONTROL

ACTIVE INGREDIENT

Prometon: 2,4-bis (isopropylamino)-6-methoxy-s-triazine	2.5%
INERT INGREDIENTS*	97.5%
TOTAL.....	100.0%

*Contains petroleum distillates

**FOR INDUSTRIAL, INSTITUTIONAL AND COMMERCIAL USE
AND STORAGE BY TRAINED SERVICE PERSONS ONLY**
EPA Reg. No. 8503-XX EPA Est. No. 8503-OH1

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

- IF IN EYES: Flush eyes with large amounts of water for at least 15 minutes. Call a physician if irritation persists.
 - IF SWALLOWED: Call a physician or Poison Control Center. Give water if conscious. May present aspiration hazard. Do not induce vomiting.
 - IF ON SKIN: Wash with plenty of soap and water. Get medical advice.
 - IF INHALED: Remove victim to fresh air.
- SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

GENERAL INFORMATION

For total weed control on certain areas around the home, the business, or workplace where no plant growth is desired, use as specified in label directions.

Prevents plant growth for up to one year.

This liquid vegetation killer is a nonselective product intended for use without further dilution. For best results, apply to bare ground or when weed growth is just starting. Weeds taller than 4-6 inches should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep-rooted perennial weeds. Use for bare ground and vegetation control on driveways, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings, and under graveled pathways where plant growth has come through these surfaces.

DIRECTION FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

For control of annual and susceptible perennial weeds such as downy brome, crabgrass, goosegrass, quackgrass, puncturevine, golden rod, and plantain. To cover 100 sq ft, apply 1-1½ pts. by use of a sprinkling can or other watering or spraying device in sufficient water to get good coverage of the area (e.g. 2½ gals. in sprinkling can). For control of hard to kill perennial broadleaf and grass weeds such as bindweed and johnsongrass as well as the biennials common mullen and wild carrot, use 2-2½ qts. in sufficient water to get good coverage. Different grades of mineral oil, diesel fuel, petroleum-based oil, fuel or kerosene may be substituted for water.

When using a sprinkling can, triple rinse and pour rinsate on area treated once application is complete. Mix only the quantity needed and use immediately. To minimize lateral movement, sprinkle lightly with a watering can or similar sprinkler device immediately after application.

PRECAUTIONS: (1) Apply when air is calm to avoid the possibility of drift onto desirable plants or grass. (2) Keep away from the roots of desirable plants and trees. (3) Use only in areas where complete control of all vegetation is desired. (4) VEG KILL 25 LIQUID VEGETATION KILLER SHOULD NOT BE USED ON CULTIVATED AREAS, ON GROUND THAT IS TO BE CULTIVATED, IN GREENHOUSES, OR NEAR THE DRIP LINE OF TREES OR SHRUBS. (5) Do not use on slopes or in areas where runoff is likely to occur (apply only to level surfaces). (6) Avoid using where adjacent desirable trees, shrubs, or plants may be injured from leaching of the chemical through the soil. (7) Keep children and animals off treated areas until these areas are dry.
