SOPP Soap

Sodium - Ortho - Phenyl - Phenate

A post-harvest fungicidal cleaner containing Hexamine as a pH buffer for citrus, apples, pears, cherries, nectarines, peaches, plums, cucumbers, cantaloupes, peppers and tomatoes.

Active Ingredient:

Sodium Ortho-phenylphenate
(anhydrous) 12.6%
(Sodium Ortho-phenylphenate
Tetrahydrate--17.3%)

Inert Ingredients: 87.4%

**KEEP OUT OF REACH OF CHILDREN!
DANGER**

**CORROSIVE, CAUSES EYE & SKIN DAMAGE. DO NOT GET
IN EYES, ON SKIN OR CLOTHING. HARMFUL IF
SWALLOWED.**

STATEMENT OF PRACTICAL TREATMENT

1. In case of eye contact, wash eyes with flowing water for 15 minutes. Call a physician.
2. In case of skin contact, remove contaminated clothing and wash skin with plenty of water. Wash clothing before reuse. If irritation develops, get medical attention.
3. If swallowed, induce vomiting immediately by giving two (2) glasses of water and sticking finger down throat. Call a physician.
4. Anyone experiencing noticeable ill effects from breathing vapor of this material should be removed to fresh air.

**SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY
STATEMENTS.**

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

CITRUS: Post-harvest control of blue, gray, green molds, stem-end rot, and citrus canker. This product is concentrated and should be diluted one (1) gallon SOPP Soap with nine (9) gallons of water to make a 2% Sodium Ortho-phenylphenate Tetrahydrate treating solution. Apply as a spray, flood or dip with contact period of 30 to 60 seconds. Flush fruit with fresh water after treatment.

Tolerance--10 ppm from post-harvest application expressed as o-phenylphenol.

APPLES AND PEARS: Post-harvest control of bacterial and fungal decay rots. This product is concentrated and should be diluted one (1) gallon of SOPP Soap with nine (9) gallons of water to make a 2% Sodium Ortho-phenylphenate Tetrahydrate treating solution. Apply as a spray, flood or dip with contact period of 15 to 30 seconds. Flush fruit with fresh water after treatment.

Tolerance--25 ppm from post-harvest application expressed as o-phenylphenol.

CHERRIES: Post-harvest control of blue mold, brown rot, and gray mold rot. Use one (1) gallon of SOPP Soap to twenty (20) gallons of water to make a 1% treating solution. Apply as post-harvest dip or spray. Rinse briefly with fresh water.

Tolerance--5 ppm from post-harvest application expressed as o-phenylphenol.

NECTARINES AND PEACHES: Post-harvest control of brown rot and rhizopus soft rot. Use one (1) gallon SOPP Soap to twenty (20) gallons of water to make a 1% treating solution. Apply as a foam, dip or spray with contact period of 20 to 30 seconds. Flush fruit with fresh water after treatment.

Tolerance--20 ppm from post-harvest application expressed as o-phenylphenol.

PLUMS: Post-harvest control of blue mold, brown rot and rhizopus soft rot. Use one (1) gallon SOPP Soap to 200 gallons of water to make a 0.1% treating solution. Apply as a dip, flood or spray. Rinse briefly with water after treatment.

Tolerance--20 ppm from post-harvest application expressed as o-phenylphenol.

CUCUMBERS: Post-harvest control of blue mold, gray mold, pink mold and rhizopus soft rot. Use one (1) gallon SOPP Soap to twenty (20) gallons of water to make a 1% treating solution. Apply as a dip, flood or spray with contact period of 30 seconds. Flush vegetables with fresh water after treatment.

Tolerance--10 ppm from post-harvest application expressed as o-phenylphenol.

CANTALOUPE: Post-harvest control of rots. Use one (1) gallon SOPP Soap to twenty (20) gallons of water to make a 1% treating solution. Apply as a dip or flood. Do not rinse.

Tolerance--125 ppm in or on cantaloupes from post-harvest application expressed as o-phenylphenol of which not more than 10 ppm shall be in the edible portion.

PEPPERS: Post-harvest control of gray mold and rhizopus soft rot. Use one (1) gallon SOPP Soap to 20 gallons of water to make a 1% treating solution. Apply as a dip, flood or spray with contact period of 30 seconds. Rinse vegetables with fresh water after treatment.

Tolerance--10 ppm from post-harvest application expressed as o-phenylphenol.

TOMATOES: Post-harvest control of bacteria and fungal decay rots.

Flood and spray washers--Use one (1) gallon of SOPP Soap to 30 gallons of water to make .57% treating solution with contact period of 20 to 30 seconds. Flush vegetables with fresh water after treatment.

Treatment tank--Use one (1) gallon of SOPP Soap to 40 gallons of water to make a .43% treating solution with contact period of 2 to 4 minutes. Flush vegetables with fresh water after treatment.

Tolerance--10 ppm from post-harvest application expressed as o-phenylphenol.

NOTICE

AMERICAN MACHINERY CORPORATION warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the risks referred to therein.
