

PIC-BROM-43

ACCEPTED

MAY 25 1967

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND ROSENICIDE ACT
EPA ECONOMIC PESTION REGISTER-
NO. 1536-7

KEEP OUT OF REACH OF CHILDREN

In case of contact immediately flush skin or eyes with plenty of water for at least 15 minutes. For eyes get medical attention. If liquid is spilled on shoes or clothing remove them at once and air thoroughly before re use.

Pic Brom 43

Handwritten notes and instructions regarding application of Pic Brom 43, including mentions of 'Apply to soil' and 'Use in garden'.

DANGER

Handwritten scribble

NOTICE

Undesirable concentrations of the preparation following application with *PicBrom 43* may drift to nearby areas. If this occurs immediately cover treated area with a plastic tarpaulin. The tarpaulins should remain in place overnight and be removed during the daytime. If the escaping vapors remain an undesirable concentration as indicated by eye irritation, the treated area should be re-covered. Slight air movement assists the dilution of the escaping fumes. In most cases that undesirable concentrations will build up during evenings or nights when the air is static. Application of *PicBrom 43* should not be made when there is little or no air movement or when there is an inversion.

CAUTION

Note carefully: Fertilization with *PicBrom 43* is a source of nitrogen and soluble salts in the soil. In areas where heavy rates of fertilizer are applied, the soil may be cold, wet, acid, or high in organic matter. To avoid fertilizer injury, as indicated by yellowing and stunting of plants, ammonia injury, or nitrate accumulation in the soil, use only fertilizers containing ammonia salts, nitrate salts, or nitrates until after the crop well established. The use of a buffer of 50 lb. of lime or agricultural lime per acre before application of *PicBrom 43* will reduce the possibility of ammonia toxicity.

Handwritten notes and scribbles under the Caution section.
