EPA Reg. No. 8536-42
August 5, 2010 Request to Amend Label

Dear Ms. Belotinsky:

In the Agency letter of May 25, 2010, the Agency approved amended labeling for this registration with the condition that specific label revisions be made to the May 25, 2010 label stamped "Accepted with Comments". This letter further amends the May 25, 2010 label stamped "Accepted with Comments" by requiring the following additional change:

On page 12, under number 2, revise the last bullet and sub-bullets to read, "Handlers can remove full-face air-purifying respirators or resume work activities if the following conditions exist provided that a half-face air-purifying respirator is worn:

- Two consecutive breathing zone samples for chloropicrin taken at the handling site at least 15 minutes apart must be less than 0.15 ppm,
- Handlers do not experience sensory irritation, and
- Air-purifying respirator cartridges have been changed.
- During the collection of air samples a full-face air-purifying respirator must be worn by the handler taking the air samples. Samples must be taken where the sensory irritation is first experienced."

The label associated with this change has been previously stamped "Accepted with Comments" and is dated May 25, 2010. Submit one copy of the final printed label that incorporates the required changes before the product is released for shipment.
