

ALGAE-GO

"Algae-Go" in concentrations recommended for swimming pools will control algae. "Algae-Go" is intended to supplement, not replace, chlorination.

The unsightly coating caused by algae makes interior pool surfaces slippery and unsafe. In addition to this hazard, the presence of algae makes pool maintenance unnecessarily expensive and time consuming. "Algae-go" 10% solution is compatible with the usual water treatment chemicals. Its continued use, as directed, will help maintain your pool water in a clean, sanitary condition.

DIRECTIONS

1. In freshly filled pools or pools showing no visible algae growth, add one gallon Algae-Go Algaecide per 50,000 gallons of water to prevent algae growth.
2. If algae growth is observed, add one gallon Algae-Go Algaecide for each 20,000 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and refill if necessary and add one gallon Algae-Go Algaecide per 50,000 gallons of water.
3. If the pool water treated as in (1) or (2) is recycled, add one gallon of Algae-Go Algaecide per 50,000 gallons of water every five to seven days.
4. If the pool water treated as in (1) or (2) above is not recycled or not filtered it should be tested periodically to determine the active ingredient content. When necessary, one gallon Algae-Go Algaecide per 50,000 gallons of water should be added to maintain two to five parts per million of active ingredient.

Kits for testing ppm of active ingredients can be purchased from Overton's.

Algae - Go

Swimming Pool Algaecide 10% Solution

ACTIVE INGREDIENTS

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) dimethyl benzyl

ammonium chloride 10%

INERT INGREDIENTS

Water and ethanol 90%

EPA Registration No. 8258-1

EPA Establishment Registration Number 082581A01

DANGER

Keep Out Of Reach Of Children

(See other precautions and first aid on side panel.)

Net Contents 1 Gallon

Rinse empty container thoroughly with water before discarding in a safe place.

Mfg. by: Overton Chemical Sales, Inc.

Sumner, Iowa

ACCEPTED

MAY 8 1975

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 8258-1

FISH AND/OR WILDLIFE CAUTION:

This product is toxic to fish; treated effluent discharged where it will drain into lakes, streams, or public waters.

DANGER:

Keep Out of Reach of Children. Corrosive. Causes eye and skin irritation. Do not get in eyes, on skin. Wear goggles or face shield and rubber gloves. Harmful or fatal if swallowed. Avoid contamination.

FIRST AID:

In case of contact, immediately flush eyes or skin with water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of water, milk, or white, gelatin solution or if these are not available, any liquid. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, depression and convulsion may be needed.

AL-J-TROL

NET CONTENTS: ONE GALLON

CAUTION: Keep out of reach of children.

ACTIVE INGREDIENTS
 Methyl dodecyl benzyl trimethyl ammonium chloride and
 methyl dodecyl xylene bis (trimethyl ammonium chloride) 10%

INERT INGREDIENT
 Water 90%

"See other precautions on the back side panel."
 USDA Registration No. 8544-6

DIRECTIONS

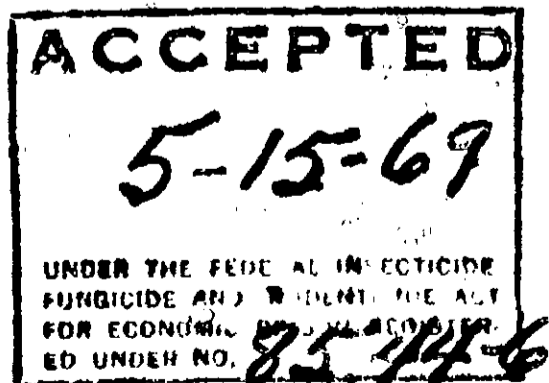

In freshly filled pools or pools showing no visible algae growth add one gallon Al-J-Trol per 20,000 gallons of water to prevent algae growth.

If algae growth is observed, add one gallon Al-J-Trol for each 10,000 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and refill if necessary, and add one gallon Al-J-Trol per 20,000 gallons of water.

MAINTENANCE DOSE: 1 gallon Al-J-Trol per 50,000 gallons of water every 5 to 7 days.

CAUTION

AL-J-TROL concentrate may cause skin irritation or damage to the eyes. Harmful if swallowed. Avoid contact with skin and eyes. Do not take internally. In case of contact with skin or eyes, flush immediately with plenty of water. For eyes, seek medical attention. Avoid contamination of food.
