STABILIZED CHLORINE TABLETS

ACTIVE INGREDIENT: Trichloro-s-Triazinetrione 100%
(Available Chlorine 90%)

DANGER: Keep out of reach of children.

May produce severe chemical burns. Do not get dust in eyes, on skin
or clothing. Do not breathe dust. May be fatal if swallowed.

KEEP COVER CLOSED WHEN NOT IN USE.

NET WT. lbs.

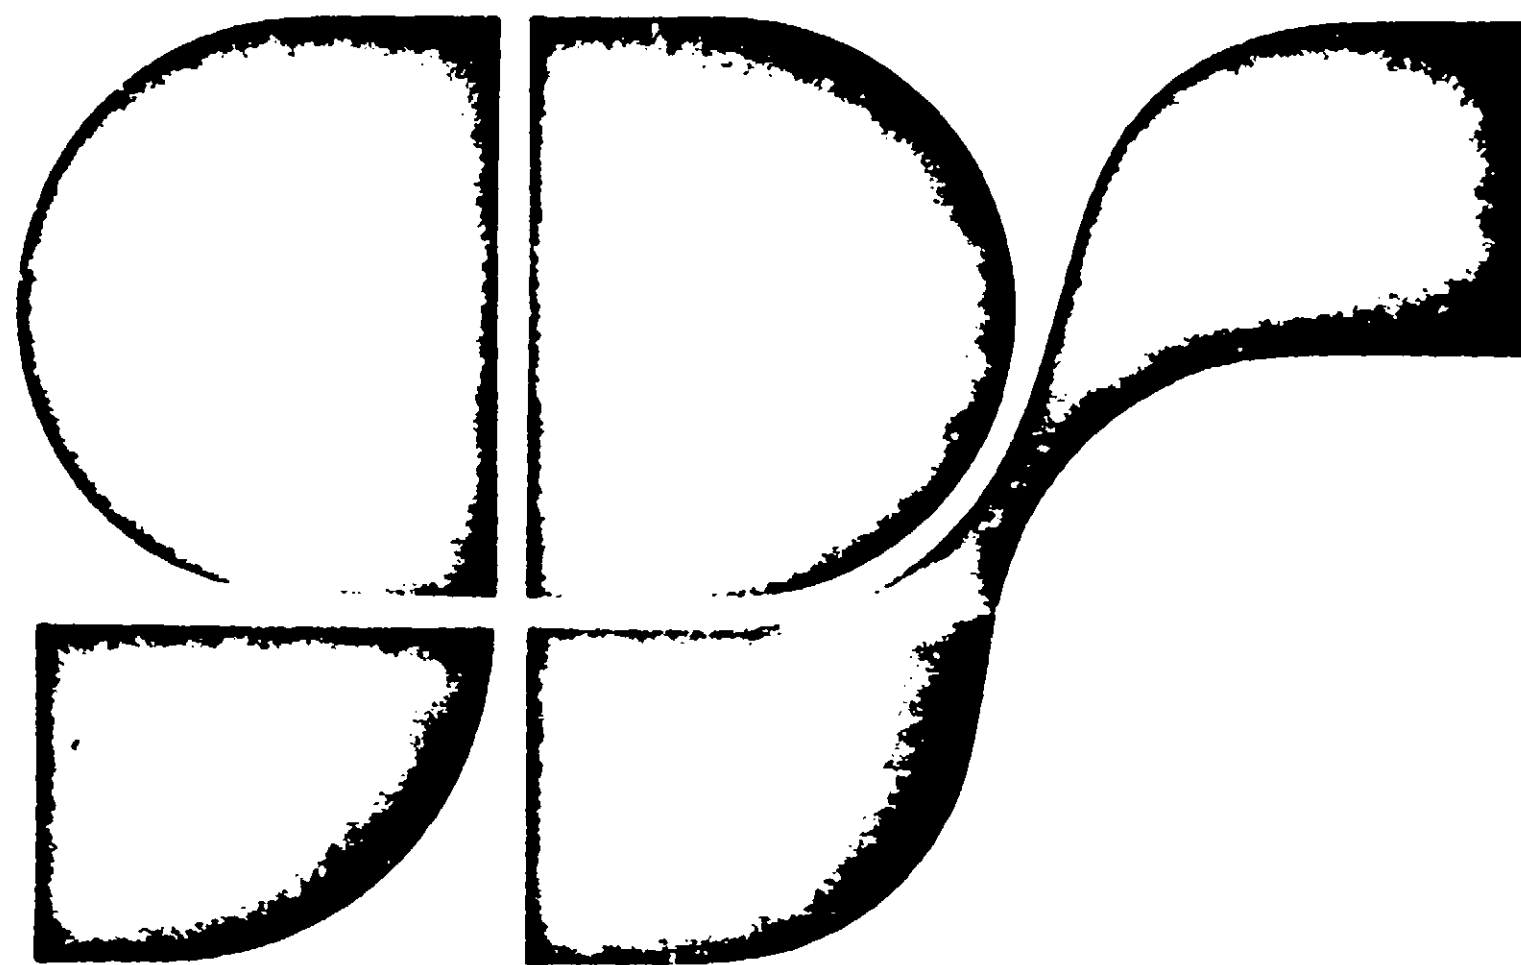

ACCEPTED

stabilized chlorine tablets for safe sanitizing and algae control

INSTRUCTIONS: Stabilize pool with SANI-CLOR Condi-
tioner. If pool is already stabilized, do not add condi-
tioner. Initially treat pool with (1) tablet per 1,000
gallons of water, and then add tablets into the skimmer
or in a floating dispenser until chlorine level reaches
1.0 to 1.5 ppm on SANI-TEST Kit. For most effective
control add tablets every other day to maintain chlorine
level at 1.0 to 1.5 ppm. For comfort and effective pool
care maintain pH between 7.2 and 7.8. It will not be
necessary to stabilize again as SANI-TAB 100 Tablets
are self stabilizing. Test pool water frequently with a
SANI-TEST Kit.

TABLET CHLORINATION SCHEDULE (RECOMMENDED TABLETS PER WEEK)

CONDITIONS	SIZE OF YOUR POOL			
Water	15 x 30	18 x 36	20 x 50	
Temp.	17 x 34	20 x 40	20 x 60	
Above 80°	24 - 36+	36 - 48+	48 - 72+	
71°-80°	30 - 32	38 - 40	40 - 44	
61°-70°	16 - 28	24 - 36	32 - 56	
51°-60°	8 - 20	16 - 24	16 - 40
