sani-tab 300

STABILIZED CHLORINE TABLETS

ACTIVE INGREDIENT: Trichloro-s-Triazinetrione100%
(Available Chlorine90%)

DANGER: Keep out of reach of children.

Corrosive. Causes eye damage. May cause severe burns to broken skin. Causes irritation on wet skin. Do not get in eyes. Avoid prolonged skin contact with tablets. Wash hands thoroughly after handling. May Be Fatal if Swallowed.

KEEP COVER CLOSED WHEN NOT IN USE.

NET WT. lbs.

**stabilized chlorine tablets for
safe sanitizing and algae control**

INSTRUCTIONS: Stabilize pool with SANI-CLOR Conditioner. If pool is already stabilized, do not add conditioner. Initially treat pool with SANI-CLOR liquid or SANI-CLOR granular chlorine as per label instructions until chlorine level reaches 1.0 to 1.5 ppm on the SANI-TEST Kit. After initial chlorination, add one (1) SANITAB 300 tablet into the skimmer or in a floating dispenser per 10,000 gallons of water daily or as needed. For comfort and effective pool care maintain pH between 7.2 to 7.8. Test pool water frequently with a SANI-TEST chlorine test kit. It will not be necessary to stabilize again as SANI-TAB 300 tablets are self stabilizing.

RINSE EMPTY CONTAINER THOROUGHLY AND DISCARD IT.
