

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

Irritating to humans. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

PLASTIC CONTAINERS: Do not reuse empty container. Triple rinse and incinerate or dispose of in an approved landfill or bury in a safe place.

SANI-CLOR AL-J-TROL III

ACTIVE INGREDIENT

Poly[oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride]

6.0%

INERT INGREDIENT

94.0%

This product contains 0.5 lb. of active ingredient per gallon and weighs 8.44 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Manufactured by:

GPS Industries

13280 Amar Road

City of Industry, CA 91746

EPA EST. NO. 8544-Ca-01

EPA REG. NO. 8544-23

NET CONTENTS ONE GALLON (3.785 LITERS).

**CONDITIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ALGAE: For use in swimming pools, spas, whirlpools, and hot tubs for maintenance. For effectiveness, pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleaned prior to using AL-J-TROL III.

For pools having just visible algae growth, add an initial dose of 97 to 150 fluid ounces of AL-J-TROL III per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 69 to 97 fluid ounces of AL-J-TROL III per 10,000 gallons of water. Subsequent additions of 24 to 48 fluid ounces of AL-J-TROL III per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 10 to 15 fluid ounces of AL-J-TROL III per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 7 to 10 fluid ounces of AL-J-TROL III per 1,000 gallons of water. Subsequent additions of 2 to 5 fluid ounces of AL-J-TROL III should be made every 5 to 7 days after initial treatment for maintenance. AL-J-TROL III is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH.

AL-J-TROL III can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required; however, do not mix AL-J-TROL III with concentrated dry or liquid chlorine products.
