

staphCHEK[®] ANTIBACTERIAL FABRICS

Effectively combines tough industrial nylon and specially formulated plastics incorporating permanent bacteriostatic qualities (for the life of the fabric) which reduce and inhibit bacterial growth and odors on STAPH-CHEK fabric's surfaces. A tough, durable, flame-retardant, tear resistant, waterproof protective covering for use in bedding ticking and covers, laundry bags and liners, cubicle curtains and similar institutional applications.

Active ingredients:

0.62% max. by wt. Bis(Tri-n-butyltin)Sulfosalicylate

0.30% max. by wt. Captan N-[(Trichloromethyl)thio]-4-cyclohexene-1,2-dicarboximide

Inert ingredients: 99.08%

U.S.D.A. Reg. No. 8730-2
