WASHINGTON, D. C. 20460

9/11/83

OFFICE OF PESTICIDE REGISTRATION

Mr. Julius C. Prinze  
Ajway Inc.  
P.O. Box 4741  
Syracuse, NY 13221

Dear Mr. Prinze:

Subject: Lindane RPAR  
Ajway Lindane II  
EPA Reg. No.: 8590-87  
Appl. Date: November 16, 1983

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. A STATEMENT OF PRACTICAL TREATMENT must be added to the labeling. We suggest the following statement, however, if your toxicological data suggests otherwise, please submit a draft STATEMENT OF PRACTICAL TREATMENT for prior approval:

"STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a physician or Poison Control Center immediately.

Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin - Remove contaminated clothing and wash affected area with soap and water.

If in eye - Flush eyes with plenty of water. Call a physician if irritation persists."

2. Revise the Precautionary Use Statement appearing under the heading: "ENVIRONMENTAL HAZARD" as follows:

"This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treatment area. Application should be timed to provide the maximum possible interval between treatment and the next period of bee activity."

3. The applicator and mixer/loader protective clothing is appropriate only to liquid formulations. Since this product is a dust, delete your present statements and insert:

"Applicators, mixers and loaders must wear long sleeved shirts, long pants, gloves and a dust mask."

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until April 1, 1984. After that date, **all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.**

Sincerely yours,

George T. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch  
Registration Division (TS-767C)
