

Contents: 6 Ounces

Makes one gallon of liquid bait.

DUOCIDE  
Soluble Bait

Kills Rats and Mice

ACTIVE INGREDIENTS:

Sodium salt of 2-Pivalyl-1, 3-Indandione\*

0.14%

INERT INGREDIENTS:

Equivalent to 2-Pivalyl-1, 3-Indandione 0.13%

99.86%

U.S. Patent No. Re. 23,080.

**CAUTION KEEP OUT OF REACH OF CHILDREN.**

The active ingredient in Duocide Soluble Bait is pivalyn, an anti-coagulant chemical. Baits prepared from it must be protected or placed where humans, livestock, poultry, wildlife, or pets will not eat or drink them. If swallowed by humans, domestic animals, or pets, this material may reduce the clotting ability of the blood and cause bleeding. In case of eating or drinking, give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Call a physician immediately.

**NOTE TO PHYSICIAN:** Administration of blood transfusions combined with intravenous injections and oral doses of pivalyn is indicated.

**WARRANTY:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the buyer, and buyer assumes the risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.

DIRECTIONS

READ THESE ENTIRE DIRECTIONS AND WARRANTY OF SALE. USE STRICTLY IN ACCORDANCE WITH LABEL INSTRUCTIONS, WARNINGS AND DIRECTIONS.

To prepare liquid bait, simply dissolve the contents of this package in 1 gal. of clean water. Pour liquid bait into glass, plastic, or crockery dish or chicken fount. (Metal containers are not recommended.) Prepare only the amount of liquid bait which is intended for exposure at any one time.

**Placement of Baits** - Place baits along walls, in corners, and in concealed locations where rats and mice can feed undisturbed. Baits should be placed in locations not accessible to children, pets, and domestic animals, or in tamper-proof bait boxes. Continue baiting until all feeding has stopped. Immediately replace liquid baits that become cloudy.

**Rats** - Pint liquid dispenser per location should be the minimum amount placed. An uninterrupted supply of bait should be maintained for at least 10 days.

**Mice** - Pint liquid dispenser should be placed at 8 to 10 foot intervals. An uninterrupted supply of bait should be maintained for at least 15 days.

**NOTE:** This pesticide is to be sold ONLY in this original unopened package.
