# ADVERTISING AND SALES PROMOTION SERVICES

FOR: AGWAY CAPTAN-LINDANE 7.5-0.5D

DATE: 11/9/83

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**AERIAL APPLICATION OF THIS PRODUCT IS PROHIBITED.**

Applicators must wear the following protective clothing during the application process: a lightweight protective suit or coveralls; water-resistant hat; unlined, waterproof gloves; and unlined, lightweight boots. Mixers and loaders must also wear goggles or a face shield, waterproof gloves and a water proof apron.

**STRAWBERRIES:** For control of Botrytis Fruit Rot, Strawberry Weevil and Meadow Spittlebug. Apply at the rate of 30 lbs. per acre in the spring when first leaves appear. Repeat at 5-10 day intervals. **DO NOT APPLY AFTER FRUIT STARTS TO FORM.** Thoroughly treat the flower buds for control of Strawberry Weevil.

## STORAGE & DISPOSAL (12 pt)

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Keep pesticide in original container. Do not store or transport near food or feed. Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or rendered unfit for sale, use or consumption.

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes skin and eye irritation. May be harmful if swallowed or inhaled. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not contaminate any body of water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from areas treated.

NOTE: This pesticide is to be sold ONLY in this original, unbroken package.

DISCLAIMER: Buyer assumes all risks of use, storage or handling not in strict accordance with directions given herewith.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

Mr. Julius C. Prinzo  
Agway Inc.  
P.O. Box 4741  
Syracuse, NY 13221

500/118013  
1/2

Dear Mr. Prinzo:

Subject: Lindane RPAR  
Agway Captan-Lindane 7.5-0.5D  
EPA Reg. No.: 8590-213  
Appl. Date: November 16, 1983

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. A STATEMENT OF PRACTICAL TREATMENT must be added to the labeling. We suggest the following statement, however, if your toxicological data suggests otherwise, please submit a draft STATEMENT OF PRACTICAL TREATMENT for prior approval:

"STATEMENT OF PRACTICAL TREATMENT"

If swallowed-Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled- Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin- Remove contaminated clothing and wash affected area with soap and water.

If in eyes- Flush eyes with plenty of water. Call a physician if irritation persists."

2. Revise the beneficial insect caution appearing under the heading "ENVIRONMENTAL HAZARDS" as follows:

"This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds growing in the treatment area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity."

3. The applicator and mixer/loader protective clothing is appropriate only to liquid formulations. Since this product is a dust, delete your present statements and insert:

"Applicators, mixers and loaders must wear long sleeved shirts, long pants, gloves and a dust mask."

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until April 1, 1984. After that date, all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.

Sincerely yours,

George T. LaRocca
