

72% EMULSIFIABLE, FOR INSECTS INFESTING HOUSEHOLDS & LAWN AND GARDEN SOILS

WARNING: KEEP OUT OF REACH OF CHILDREN

See additional cautions and warnings on back panel.

ACTIVE INGREDIENTS: Pct. by Wt.
 *Technical Chlordane 72.00%
 Xylene 23.00%
INERT INGREDIENTS,
 not more than 5.00%

Total 100.00%
 *Equivalent to 43.2% Octachloro-4, 7-Methanotetrahydroindane and 28.8% related compounds. Contains 1 lb. Technical Chlordane per pint.

CHLORDANE SPRAY

NET CONTENTS ONE QUART

WARNING: Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs.

This product is toxic to fish and wildlife. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Birds feeding on treated areas may be killed.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your cooperative Agricultural Extension Service.

DIRECTIONS

READ THESE ENTIRE DIRECTIONS AND WARRANTY OF SALE. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.

HOUSEHOLD PURPOSES: To control ants, box elder bugs, carpet beetles, cockroaches, crickets, silverfish, spiders and wasps, use 4 teaspoonsful of 72% CHLORDANE SPRAY per quart of water. Apply as a coarse spray or paint infested areas, paying special attention to baseboards, cracks, underneath rugs or other hiding places. Also treat doorways and other entry points. Repeat as needed. Use care in treating finished surfaces to avoid staining. For Spot Application only.

LAWNS, ORNAMENTAL TREES, NURSERY SOILS: To control such sub-soil insects as wireworms, and grubs of Japanese beetle, European chafer, Asiatic garden beetle, masked chafer, May beetle, Oriental beetle and rose chafer, apply 11 teaspoonsful in 5 gallons of water to 500 sq. ft. Apply when infestation is discovered and ground is not frozen. Thoroughly mix into top 3 inches of soil by harrowing, or wash in by sprinkling. One application should provide protection against the above grubs for 1 or more years and will also control ants, chiggers, chinch bugs, cutworms, earwigs, millipedes, mole crickets, sod webworms and sowbugs when present. Keep children and pets off treated area until insecticide is washed into the soil and the grass is thoroughly dry.

Moles will tend to leave lawns after insects serving as a food supply have been controlled.

FOUNDATIONS: Use 1 quart of Chlordane per 50 gallons of water (4 teaspoonsful/gallon). Dig a 1 foot x 1 foot trench along exterior of foundation. Treat both trench and back fill. Apply 1/2 gallon of spray per linear foot of trench.

For deep foundations bore 1 inch holes 8 inches apart and 15 inches deep in the bottom of the trench. (Do not dig below the depth of footings.) Spray trench and back fill with 1 gallon of above spray per linear foot of trench.

Saturate unexposed soil areas under patios and walks adjacent to the foundation with the above spray. Pour in expansion cracks and in shallow trenches or holes bored 12 inches apart along walk edge or patio.

Treat exposed soil under porches with 1 gallon of same spray per square yard or per 10 square feet. In heavy clay soils increase the mixture to 1 quart of Chlordane per 50 gallons of water (8 teaspoonsful/gallon). Spray thoroughly all areas where wood contacts soil as well as points of entry around basement windows and pipes. Use 2 quarts per 50 gallons of spray (8 teaspoonsful/gallon).

Inspect annually to determine the need for reapplication.

VEGETABLES: BRUSSEL SPROUTS, CABBAGE, CAULIFLOWER, CUCUMBER, EGGPLANTS, PEAS, PEPPERS, POTATOES, TOMATOES, SWEET CORN, TOMATOES, TURNIPS, etc. To control grubs of Japanese beetle, European chafer, Asiatic garden beetle, masked chafer, May beetle, Oriental beetle and rose chafer, as well as root aphids, non-resistant root maggots, root weevils and wireworms apply 11 teaspoonsful in 5 gallons of water to treat 500 sq. ft. prior to planting.

Disc or wash into soil immediately after application to thoroughly mix into top 3 inches of soil. Ants, cutworms, earwigs, millipedes, mole crickets, slugs and sowbugs will also be controlled.

NOTE: This pesticide is to be sold ONLY in this original unbroken package.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.
