(((REAR PANEL)))

DANGER: (((18 pt. type))) May be fatal if swallowed, inhaled, or absorbed through skin! Rapidly absorbed through skin! Do not get in eyes, on skin, or on clothing. Wear natural rubber gloves, protective clothing and goggles. In case of contact, wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before re-use. Wear a mask or respirator of a type passed by the U. S. Department of Agriculture for protection. Keep all unprotected persons out of the operating areas or vicinity where there may be danger of drift. Vacated areas should not be re-entered until drifting insecticide and volatile residues have dissipated. Do not contaminate feed and foodstuffs.

ACCEPTED
 FOR USE AS A PESTICIDE
 REGISTERED UNDER THE
 FEDERAL INSECTICIDE ACT
 OF 1947
 U.S. DEPARTMENT OF AGRICULTURE
 WASHINGTON, D.C.

This product is toxic to fish and wildlife. Do not contaminate any body of water. Birds feeding on treated areas may be harmed. Use this product only as specified on this label. (((Add paragraph at bottom of p. 4 as part of this paragraph))) (((Leave space before "First Aid")))

FIRST AID TREATMENT: SYMPTOMS: A sense of "tightness" in the chest, sweating, contracted pupils, stomach pains, vomiting and diarrhea. TREATMENT: In case of poisoning call a physician immediately. Have patient lie down and keep quiet. If swallowed, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Administer milk or water freely and again induce vomiting until vomit fluid is clear. If on skin, remove contaminated clothing and wash skin immediately with soap and warm water. If eyes are contaminated, wash with flowing water for at least 15 minutes.

NOTE TO PHYSICIAN: ANTIDOTE: Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. 2-PAM is also antidotal and may be administered in conjunction with atropine.

Compound inhibits cholinesterase resulting in stimulation of the central nervous system, the parasympathetic nervous system, and the somatic motor nerves. Do not give morphine. Watch for pulmonary edema, which may develop in serious cases of poisoning even after 12 hours. At first sign of pulmonary edema, the patient

should be placed in an oxygen tent and treated symptomatically.

DIRECTIONS

READ THESE ENTIRE DIRECTIONS AND WARRANTY OF SALE. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.

DRY BULB ONIONS: In North Central and Northeastern states only, to control both onion maggot and onion smut apply Thiram-Tinasad 5-5 G evenly in the furrow at the time of seeding as follows:

Row Spacing	Amount of Thiram-Tinasad 5-5 G/ 1000 ft. of row
13"	10 ozs. REGARDLESS of row spacing*

*For extremely narrow row spacing, do not exceed the 20 lbs. per acre rate.

The above rates will provide 20 pounds of Thiram-Tinasad 5-5 G per planted acre. Do not use in conjunction with pelleted seed. Do not apply to green bunch onions. This formulation contains individual granules covered with both an insecticide and a fungicide.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.
