ACTIVE INGREDIENTS	
Methoxychlor™ Technical	23.787%
Malathion (O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate)	23.807%
Xylene	43.510%
INERT INGREDIENTS	
	8.896%
	100.000%

23.787 methoxychlor technical is equivalent to 20.814% of 2,2-bis(p-methoxyphenyl) 1,1,1-trichloroethane, 2.973% other isomers and reaction products. Contains 2 lbs active ingredient Methoxychlor and 2 lbs active ingredient Malathion per gallon.

# SKREET-AWAY

NET CONTENTS ONE QUART

**CAUTION:** Harmful if swallowed. Do not breathe spray mist. Avoid contact with skin. Wash thoroughly after using. Do not contaminate feed and foodstuffs.

This product is toxic to fish and wildlife. Keep out of lakes, ponds, & streams. Shrimp and crab will be killed at application rate recommended on this label. Do not apply where these are important resources.

Do not reuse empty container. Destroy it by burying with wastes or by burning. Stay away from smoke.

## DIRECTIONS

READ THESE ENTIRE DIRECTIONS AND WARRANTY OF SALE. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.

Skeet-Away may be used as a residual spray for the control of adult mosquitoes or as a mosquito larvicide (1) applied as a pre-hatch winter treatment for the control of "spring brood" mosquito larvae, and (2) applied as a surface treatment to water breeding sites when larvae are present during the spring and summer.

Apply 1 3/4 ounces of Skeet-Away in enough water to cover 1,000 sq. ft. using a knapsack-type sprayer. Cover trunks and stems of shrubs and trees as well as grassy vegetation, fences, outbuildings and other structures near the ground. Sprays should be made to the point of runoff, but not excessive runoff. Repeat applications weekly. Do not spray foliage of Ferns, Hickory, Viburnum, Dogwood, Petunias, White pine or Maple.

Skeet-Away may be mixed with water for spray application or may be applied in undiluted form to the mosquito source. Apply only to known mosquito sites. When used in diluted form mix in sufficient water to obtain even coverage.

-Make a single application during the winter months at a rate of 3/4 ounces per 1,000 sq. ft.

-Make one or more applications to the source, as needed, for succeeding broods during the summer and spring. Apply at the rate of 3/4 ounce per 1,000 sq. ft.

**WARRANTY:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.

**NOTE:** This pesticide is to be sold ONLY in this original unbroken package.
