GREENLAWN PLUS

21-5-7 broadleaf weed killer

CONTROLS CHICKWEED AND BROADLEAF WEEDS AND FERTILIZES YOUR LAWN IN ONE EASY APPLICATION

23 POUNDS TREATS 5,000 SQUARE FEET

CAUTION: Hazard if swallowed. Avoid inhalation of dust. This product may cause skin irritation. Avoid contact with skin, eyes or clothing. Flush eyes with water and get prompt medical attention. Wash hands after using.
Vapors from this product may harm susceptible plants in the immediate vicinity. Do not spray near other lawns, roads, sidewalks or highways. Clean lawn spreader thoroughly after using by washing with strong spray from garden hose and wipe dry. Do not concentrate water used for irrigation or domestic purposes. Do not reuse empty container. Destroy by burning with water. Do not burn.
This product is toxic to fish, sheep and to lakes, streams or ponds. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

DIRECTIONS

READ THESE CAREFUL DIRECTIONS AND WEEDS OF SOIL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS, AND DIRECTIONS.
To control many broadleaf weeds in lawns such as Chickweed, Sandcherry, Plantain and Ground Ivy, to feed the lawn for a thicker, more vigorous turf, make application as soon as weeds start to grow in the spring. Apply two days after mowing at the rate of 4.6 lbs. per 1,000 square feet. This rate of application is equivalent to about 200 lbs. of 21-5-7 fertilizer and 1.7% lbs. of 2,4-Dichlorophenoxyacetic acid equivalent plus 0.60 lbs. of 2,4,6-Trichlorophenoxypropionic acid equivalent per acre. Broadcast evenly with a lawn spreader when grass is dry and water it in.

An additional application may be made in late summer or early fall when grasses begin to grow vigorously. For best results and a more vigorous turf, supplement with additional application of Agway lawn fertilizer through the growing season.

NOTE: AVOID DRIFT TO OR APPLICATION ON VALUABLE PLANTS, FLOWERS AND SHRUBS. Do not use on new lawns until they have been established for four to five months. Do not use on Dichondra.

APPROXIMATE SETTINGS* FOR ESTABLISHED LAWN & TURF AREAS

Spreader	Twice Over Applications	Once Over Applications
Agway or Jackson	6	6½
Agway or Cyclone #B	3½	4½
Scotts	4½	6

*NOTE: These settings are furnished as a guide only. Age, condition of spreader, speed of operation and roughness of terrain can cause variation in rates.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.

NOTE: This pesticide is to be sold ONLY in this original, unbroken package.
