DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Wear goggles or face shield when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and separately launder clothing before reuse.

Mixers/loaders when mixing and loading this product must wear a long sleeved shirt and long pants or a coverall that covers all parts of the body except the head, hands and feet. Wear chemical resistant gloves, goggles or a face shield and a chemical resistant apron.

AFTER WORK: Take off all clothes and shoes. Shower using soap and water. Do not wear contaminated clothing. Wash protective clothing and equipment with soap and water after each use. Personal clothing worn during use must be laundered separately from household articles. Clothing and protective equipment heavily contaminated or drenched with captan must be destroyed according to state and local regulations.

A dust mask must be worn when mixing and loading this product.

STORAGE & DISPOSAL (12 pt)

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Store unused product in original container only. Store in a cool, dry area preferably locked and out of the reach of children and animals. Not for use or storage in or around the home. Protect from excess heat.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a Violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning or dispose of in a sanitary landfill, or by other approved State and local procedures.

PRODUCT INFORMATION: Agway Protector - 2 seed treatment is a specially formulated Planter Box combination of Diazinon for protection against seed corn beetles and seed corn maggots and Captan for protection against fungus diseases of seeds and seedlings.

NOTE: Do not use on seed already treated with an insecticide other than Malathion or Methoxychlor (for control of stored grain insects). Seed within one month of treatment. Regularly inspect planter plates and clean as required. If the seed treatment increases the friction between seeds, sufficient to reduce the rate of delivery through a grain drill, 1 ounce of graphite per bushel of seed should be added as a drill lubricant. Adjust the seed drill to give the required rate of seed delivery with the treated seed.

MIXING INFORMATION: Put 1/2 of seed to be treated in Planter Box. Apply 1/2 of desired rate of seed treatment material and stir thoroughly to mix using a paddle. Add remaining seed and remaining seed treatment material, stir as previously described.

RECOMMENDATIONS: Planter box application - use on seed by mixing with the seed in the planter box at a rate of 2 oz./bushel.

<u>Size of Planter Box</u>	<u>No. of 1 oz. Scoops/Planter Box</u>
1/2 bushel	1 heaping scoop (2 oz./bu.)
1 bushel	2 heaping scoops (2 oz./bu.)

For seed corn beetles - While the above rate will provide some protection against seed corn beetles, preliminary results indicate that 4 to 6 oz./bu. (4 to 6 scoops) may be more effective for protection against the seed corn beetles.

DISCLAIMER: Buyer assumes all risks of use, storage or handling not in strict accordance with directions given herewith.

NOTE: This pesticide is to be sold ONLY in this original, unbroken package.
