MOGUL® A-495

For inhibition and control of microbiological growths (algae, fungi and bacteria) in industrial recirculating cooling water systems.

KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE

DANGER

KEEP OUT OF REACH OF CHILDREN

(See First Aid and additional precautions on the side panel)

DIRECTIONS FOR USE

Begin treatment when the system is in jeopardy of becoming affected or after cleaning systems whose efficiency is already impaired. Badly fouled systems must be cleaned before treatment is begun.

For optimum performance, add MOGUL A-495 to the cooling tower basin, or at some other point of uniform mixing. MOGUL A-495 should be applied by the Intermittent (Slug) Method.

INTERMITTENT (SLUG) METHOD

INITIAL DOSE: When the system is noticeably fouled, add 3 - 5 ounces (21 - 35 tablets) of MOGUL A-495 per 1000 gallons of water in the system. After 4 hours, test the system with a chlorine test kit. Repeat the dosage until at least 1.0 ppm of available chlorine residual is detected in the system 4 hours after application.

SUBSEQUENT DOSE: On a daily basis, add 1 - 3 ounces (7 - 21 tablets) of MOGUL A-495 per 1000 gallons of water in the system. Test the system water with a chlorine test kit and repeat the dosage as necessary to obtain at least 1.0 ppm of available chlorine residual in the system 4 hours after application.

(One ounce of MOGUL A-495 per 1000 gallons of water will supply approximately 5.2 ppm of available chlorine.)

MOGUL A-495 is an excellent source of available chlorine in a convenient tablet form. It is designed to dissolve slowly (up to 4 hours) to provide a steady source of available chlorine. There are approximately 7 tablets to one ounce of MOGUL A-495. A standard measuring cup will hold approximately 8 ounces (56 tablets) of MOGUL A-495.

NOTICE:

The Mogul Corporation warrants that this product conforms to its description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions for use, but neither this warranty nor any other warranty of "Merchantability", or "Fitness For A Particular Purpose", express or implied, extends to the use of this product contrary to label instructions, or under conditions not reasonably foreseeable to The Mogul Corporation, and the buyer assumes the risk of any such use.

INGREDIENTS

ACTIVE INGREDIENT:
Calcium hypochlorite 70%
INERT INGREDIENTS: 30%
(Available Chlorine 70%)

(Approximately 112 tablets per pound of MOGUL A-495)

EPA Reg. No. 8591-25

HANDLING PRECAUTIONS

DANGER

KEEP OUT OF REACH OF CHILDREN

MAY BE HARMFUL OR FATAL IF SWALLOWED

STRONG OXIDANT

MAY CAUSE FIRE IF CONTAMINATED

This product may produce severe chemical burns. Do not allow contact with eyes, skin, mucous membranes or clothing. Do not mix with other pool chemicals. Mix only with water. Contact or mixing with other material or chemicals may cause fire or explosion. Store away from combustible materials.

FIRST AID: In case of skin and eye contact, flush with plenty of water. If eye contact occurs or a skin irritation persists, get medical attention. If swallowed - give milk, gelatin solution or egg whites. Follow with milk of magnesia, vegetable oil or beaten eggs. Call a physician immediately. Never give anything by mouth to an unconscious person.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Apply this product only as specified on this label.

WASH HANDS THOROUGHLY AFTER HANDLING

DO NOT REUSE EMPTY CONTAINER

WASH EMPTY CONTAINER THOROUGHLY
WITH WATER BEFORE DISCARDING

Printed in the U.S.A.

Add directly to pool water
Dissolves immediately
No irritation in pool dilutions

Swimrite CL-100 Dry Chlorine Concentrate helps you have a healthful, sanitary pool in the easiest possible way. It maintains a longer disinfectant life than chlorine in other forms, and it is extremely simple to handle and economical to use. While taking up practically no space, it maintains high strength regardless of storage time.

After your pool water has been conditioned and stabilized, you add only 1 oz. per 10,000 gallons of water per day to keep the pool safe and clean.

WARNING — HARMFUL IF SWALLOWED

NOTE: Because it is concentrated, this product is required by law to be labeled as poison. The recommended dilutions, however, are not classified as poisonous.

ANTIDOTE:

Internally — Feed gruel or cooked cereal followed by olive oil or cooking oil. Externally, or in the eyes — Immediately flood with cold water. CALL A PHYSICIAN AT ONCE!

DANGER

Strong oxidizing agent. Do not allow to come into contact with acids, combustible or oxidizable materials. ~~If contaminated~~, may cause fire and release toxic gases. Mix only with water as directed. ~~Avoid contact with skin and eyes.~~ Keep tightly closed when not in use, and store in cool, dry place. USE ONLY DRY, CLEAN MEASURING DEVICE.

Destroy or safely dispose of empty container. NEVER reuse or refill. Carefully remove and dispose of any spillage. DO NOT put spilled CL-100 back into container.

Comments

Contaminated from
any source
Do not get in eyes
OR ON SKIN
