

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

ful if swallowed. Avoid breathing spray mist. Avoid contact with skin. Wash thoroughly after handling. Do not contaminate food or feed products. Avoid contamination of milk, milk equipment, water, drinking fountains and feed troughs. Do not treat animals for one month of age.

STATEMENT OF PRACTICAL TREATMENT

SWALLOWED: Induce vomiting by giving 2 glasses of water and touching back of throat with finger, and call a physician immediately. Never give anything by mouth or induce iting in an unconscious person.

INHALED: Remove person to fresh air, and call a physician. Administer oxygen if necessary.

IN EYES: Flush with plenty of water for at least 15 minutes.

ON SKIN: Wash thoroughly with soap and water. Remove contaminated clothing and do not reuse without laundering. Call a physician.

SEE YOUR PHYSICIAN: May cause cholinesterase inhibition. Atropine is antidotal.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and jarries. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Apply this product as specified on this label.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Selective information may be obtained from your cooperative agricultural extension office.

PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame. Minimum flash point 102.2°F

NOTE: CYTHION 57 EC may cause spotting on automobile paint finish. Cars should not be sprayed directly. If accidental exposure occurs, the car should be washed immediately.

DIRECTIONS FOR USE

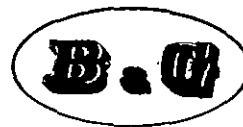

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply CYTHION 57 EMULSIFIABLE CONCENTRATE for the control of roaches, ants, silverfish, crickets, bedbugs, fleas and exposed stages of flat grain beetles, flour meal moths, red flour beetles, rice weevil, granary weevil, rusty grain beetle and weevil-toothed grain beetle.

HOUSEHOLD INSECT CONTROL

Use CYTHION 57 EMULSIFIABLE CONCENTRATE at the rate of 4 ounces per gallon of water to control the following household pests:

ROACHES, ANTS AND SILVERFISH: Make spot applications as a coarse spray or apply with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, sinks and stoves.

DIRECTIONS FOR USE (continued)

SPIDERS AND CRICKETS: Apply spray around windows, doors and along baseboards.

PANTRY PESTS - Exposed stages (flat grain beetle, granary weevil, Indian meal moth, red flour beetle, rice weevil, rusty grain beetle, and saw-toothed grain beetles: Apply spray to shelves and cupboards where food containers suspected of being infested are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment is supplemental to good housekeeping since it will have no effect on insects breeding within food packages. Infested food packages should be destroyed.

BEDBUGS: Dilute CYTHION 57 EC at the rate of 2 to 4 tablespoonfuls per 1 gallon of deodorized kerosene. Apply lightly to all mattress surfaces in sufficient quantity to "mist" the fabric and generously to beds and woodwork with special care taken to wet all possible hiding places. Repeat application as necessary.

FLEA CONTROL

ON DOGS AND CATS - Direction Application: Apply spray of 1 ounce of CYTHION 57 EC per 1 gallon of water. Wet the animals thoroughly using a hand sprayer. Repeat treatments may be used within 2 to 3 weeks. Do not treat animals under 1 month of age.

ANIMAL QUARTERS: For control of fleas in kennels, pens, yards, lawns and under houses. Dilute 5 ounces of CYTHION 57 EC in 1 gallon of water and apply at the rate of 1 gallon per 1,000 square feet. Use garden sprayer. Remove manure or debris before spraying. Repeat treatment within 3 to 4 weeks if necessary.

MOSQUITO CONTROL

MOSQUITO LARVAE IN STANDING WATER - Intermittently Flooded Areas, Stagnant Water, Temporary Rain Pools: Apply CYTHION 57 EC at the rate of 13 fluid ounces (approximately 1/2 pound) of Cythion per acre. Mix in sufficient water or oil when applied by air or ground equipment.

MOSQUITOES, FLIES AND SMALL FLYING INSECTS OUTDOORS - As a Spray: Dilute 1 part CYTHION 57 EC to 28 parts water, fuel oil or diesel oil.

Avoid applying oil based formulations to valuable ornamental plants as injury may occur.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container in locked storage area.

PESTICIDE DISPOSAL: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state or local authorities, by burning. If burned, stay out of smoke.

NOTICE

Seller's guarantee shall be limited to the terms of the label, and subject thereto, the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
