PRECAUTIONARY STATEMENTS

This pesticide is highly toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public water unless this product is specifically identified and addressed in a NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid breathing vapor. Avoid contact with skin, eyes or clothing. Wear mask or respirator of type recommended by NIOSH (National Institute for Occupational Safety or Health) to give adequate protection against this material. Wear protective clothing. Wash exposed skin with soap and water after handling and before eating. Wash all contaminated clothing with soap and water, separately from other clothing, before reuse.

In food handling areas, food should be removed or covered previous to treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Apply only when facility is not in operation.

Before application, remove plants and animals from area to be treated. Do not use in horse stables if horses are to be used for food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush skin and eyes with plenty of water for at least 15 minutes. Call a physician.

PHYSICAL OR CHEMICAL HAZARDS

Extinguish open flame before space spraying. This formulation is combustible. Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This concentrate is designed for use undiluted in ULV sprayers such as the Leco Mini ULV or Micro Gen, which give particles of aerosol size. It can also be diluted with oils which meet food additive regulation #121, 1182, for use in mechanical fogging equipment such as the B&G 2300 or AFA 6200 Fog Master machines which give larger particles. It can also be diluted with oil as specified and applied as a contact spray.

ULV APPLICATIONS

For use in ULV mechanical aerosol generators such as the Leco Mini ULV or Micro Gen. Apply undiluted at the rate of 0.5 fluid ounces of concentrate per 1000 cubic feet of space. Direct output from aerosol generator upwards toward upper corners of room and ceiling. This undiluted spray may be applied in facilities operating under USDA poultry, meat, rabbit and egg products inspection program. Extinguish all flames in the area to be treated. Shut off all air conditioning or ventilating equipment. Vacate room before application. Leave closed for one hour after spraying. Ventilate room thoroughly before reentry.

SPACE SPRAY - To kill adult and accessible stages of insect pests of stored foods: grain weevils, flour beetles, sawtoothed grain beetles, Angoumois grain moths, Mediterranean flour moths, Indian meal moths, grain mites, carpet beetles and spider beetles. Direct output into corners, under pallets and around stacks of packaged goods hitting as many of the insects as possible. Then treat as a space spray upward toward upper corners of room and ceiling.

To kill houseflies, mosquitoes and gnats: Treat as a space spray directing output toward upper corners of room and ceiling.

CONTACT SPRAY

Use undiluted to kill roaches, silverfish, earwigs, ants, spiders, crickets, centipedes, sowbugs, millipedes, carpet beetles: Apply the spray as a coarse wet spray into all cracks and crevices in woodwork, walls, floors beneath sinks and other insect harborages, contacting as many insects as possible.

To kill wasps and hornets: Contact application should be made in late evening when insects are at rest. Spray liberally into hiding and nesting places, contacting as many insects as possible. Repeat as necessary.

SYN-PY-3-LV

MULTIPURPOSE SPRAY

CONTAINS 0.2 POUNDS OF SBP-1382 PER GALLON
FOR INDOOR USE IN ULV, MECHANICAL MISTING SPRAYERS,
OR THERMAL FOGGERS.

FOR HOMES, STORES, INSTITUTIONS, RESTAURANTS,
FOOD PROCESSING PLANTS, WAREHOUSES, INDUSTRIAL
INSTALLATIONS, AND HORSE STABLES

DIRECTIONS FOR USE

MECHANICAL MISTING EQUIPMENT

For mechanical misting equipment use concentrate to 5 fluid ounces of petroleum distillate. Dilute to 0.25% SBP-1382 by adding petroleum distillate. Dilute to 0.20% SBP-1382 by adding petroleum distillate. Dilute to 0.10% SBP-1382 (which is one ounce of the 3.0% concentrate to 29 fluid ounces of petroleum distillate).

FLYING INSECTS: For most effective control, adjust sprayer to deliver a fine mist. For

To kill houseflies, mosquitoes, gnats: Point nozzle upward, direct spray into windows and other light sources within the treated area. Keep the room closed. Repeat as necessary.

CRAWLING INSECTS: Adjust sprayer to deliver a fine mist. For

To kill roaches, earwigs, grain mites, grain insects (adult and accessible stages), grain beetles, shiny spider beetles, meal moths: Spray thoroughly into around pipes and sinks, under harborage areas. Spray directly on

To kill ants: Spray trails, nests and necessary.

Use 0.2% SBP-1382 for the control of roaches, earwigs, grain mites, grain insects (adult and accessible stages), grain beetles, shiny spider beetles, meal moths: Spray thoroughly into around pipes and sinks, under harborage areas. Spray directly on

STOP
Do not contaminate water, food or feed. **STORAGE:** Store in original container. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product should be disposed of in an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse, if necessary, and recycle where permitted by state or local authorities.

Seller's guarantee is limited to the product on these conditions.
