

DIRECTIONS FOR USE & CONDITIONS OF SALE

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.

PRECAUTION AL USUARIO: Si usted no lee Inglés, no use este producto hasta que la etiqueta le haya sido explicada amablemente.

TRANSLATION: (TO THE USER:) If you cannot read English, do not use this product until the label has been fully explained to you.

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PESTS INDOORS

GENERAL INFORMATION: Use Ban-buG Plus Insecticide to control the pests indicated in the areas listed below by application of the product as undiluted spray. Repeat the treatment as needed.

Do not apply sprays of this product in conduits, meter housings, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not use in poultry houses or other animal buildings. Do not allow spray to contact food, feedstuffs and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

Application within Food Handling Establishments (places other than private residences in which food is held, processed, prepared or served), including, but not limited to Restaurants, Grocery Stores, Bakeries, Bottling Plants, Canneries and Grain Mills:

Use as a spot treatment in and around both food and non-food areas to control cockroaches (including strains resistant to certain other insecticides), ants, crickets, firebrats, silverfish, spiders, and stored product insects such as confused flour beetles, saw-toothed grain beetles, Indian meal moths, rice weevils, mediterranean flour moths, and red flour beetles. Apply as a coarse, low pressure (20 psi or less) spray to localized areas. Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners, rooms and closets; along and behind baseboards; beneath and behind stoves; refrigeration units and similar food preparation areas and equipment; floor drains; and around plumbing and other utility installations. For ants, apply to ant trails and wherever these pests may find entrance. Spot treatment may encompass crack and crevice treatment by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases, or which occur at points between different elements of construction or between equipment and floors. Equipment capable of delivering a pin stream of insecticide should be used. Repeat treatment as needed, but not more than once every 7 days in restaurants and similar food service establishments; or more often than once every 14 days in other types of food handling establishments. In case of emergency (total ban) Ban-buG Plus may be applied after 2 days from the last treatment, but heavy use should be limited to 1 or 2 treatments.

Application of this product to electrical equipment should be avoided unless specifically directed by the manufacturer and a qualified electrician. If necessary, the equipment should be de-energized and the manufacturer's instructions followed.

B.B.

Ban-buG Plus

CONTAINS DURSBA® AND SYNERGIST
CONTROLS PESTS IN & AROUND HOUSEHOLDS

ACTIVE INGREDIENTS:

Chlorpyrifos-0,0 Diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate..... 0.538
D-Trans Allethrin (ATV) Homolog of Cisnerin ID)..... 0.161
N-Cetyl Bicycloheptene Dicarboximide..... 0.161
Piperonyl Butoxide, Technical..... 99.199

INERT INGREDIENTS:

TOTAL..... 100.000

*Piperonyl Butoxide Technical 0.101 consists of 0.081 (butyl or allyl) (6-propylpiperonyl) ether & 0.020 related compounds.
DURSBA® IS A REGISTERED TRADEMARK OF DOW CHEMICAL CO.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

PRECAUTIONARY STATEMENTS

Hazards To Humans

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly after handling.

IF SWALLOWED: Call a physician or poison control center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap & water.

IF IN EYES: Flush eyes with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

Physical or Chemical Hazards

Do not use or store near heat or open flame. Do not store below 32° F.

Environmental Hazards

This product is toxic to fish, birds and other wildlife. Do not apply directly to lakes, streams and ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. This product is highly toxic if bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Cooperative Agricultural Extension Service.
