PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals CAUTION

Do not breathe spray mist. Wear a mask or respirator of a type recommended for protection against this type of insecticide. Wear protective clothing. Wash used skin surfaces with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Remove pets, birds and cover fish tanks before spraying.

Do not apply as a space spray while food processing is underway. Except in federally inspected meat and poultry plants, when applied as a surface spray with care and in accordance with the directions and precautions given below, food processing operations may continue. Foods should be covered or covered before treatment. In food processing areas, all surfaces must be washed and rinsed with potable water after spraying.

In using in animal quarters, do not apply directly to feed, water or food supplements. Wash a dairy animal before milking.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment washwater. Shrimp and crabs may be killed at application rates recommended on this label. Do not apply where these are important resources.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Pyrenone General Purpose Spray is an effective, fast-acting insecticide that kills the accessible or nest stages of: Ants, Bedbugs, Cheese Mites, Clover Mites, Cockroaches, Crickets, Flying Moths, Fruit Flies, Gnats, Hornets, House Flies, Mosquitoes, Scorpions, Silverfish, Spiders and wasps, and these common Stored Product Pests: Angoumois Grain Moths, Carpet Beetles, Cheese Mites, Cigarette Beetles, Confused Flour Beetles, Drugstore Beetles, Grain Mites, Granary Weevils, Indian Meal Moths, Meal Moths, Mediterranean Flour Moths, Rice Weevils, Rust Red Flour Moths, Sawtoothed Grain Beetles, Spider Beetles and Tobacco Moths.

For maximum insect control, a combination localized surface application and space treatment is recommended.

SPACE SPRAY

For rapid control of House Flies, Fruit Flies, Mosquitoes, Flying Moths, and Gnats. Close doors, windows and shut off ventilating systems. Use a good sprayer adjusted to deliver a fine mist. Direct spray toward the upper portions of the enclosure and filling the room with mist. Use 1 ounce of spray for each 1000 cu. ft. of space. Keep area closed for at least 10 minutes before spraying. Vacate area after treatment and ventilate before reoccupying.

VAPOR SPRAY

Pyrenone General Purpose Spray is a potent spray that permits its use as a fog or vapor. Used in special electric steam or compressed air equipment. Use in accordance with manufacturer's directions for the individual type of applicator selected. Dosages vary with room temperatures, but many such applicators are designed to give most effective results when material is used at 1 pint to each 1000-15,000 cu. ft. of space. In all cases, dosages should be based on thoroughly filling the enclosure with fog or vapor. Insects controlled will be the same as given for Space Spray above.

SURFACE SPRAY

Control Cockroaches, Silverfish, Crickets, Spiders, Clover Mites, Scorpions, Cheese Mites, Saw Skippers, Spider Beetles, use **Pyrenone General Purpose Spray** in a good machine adjusted to deliver a coarse droplet spray using approximately 1 gallon of material to each 750 sq. ft. of area. Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, etc., shelves, under door and window frames, pipes, toward drains and dark corners and cracks, crevices, recesses and similar hiding places, contacting insects wherever possible.

For Ant Infestations: Treat shelves, cabinets, storage areas. Spray ant runs, trails, mounds, thresholds and other places of entry and treat nests liberally.

DIRECTIONS FOR USE (continued)

To Control Bedbugs effectively: Apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frames, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets, bedroom furniture and picture frames with particular attention to protected bedding hiding and breeding places.

To Control Carpet Beetles effectively: Apply to floor areas and baseboards. Spray directly into cracks, crevices and under carpets where insects may be found. Treat both the underside and top side of infested carpets. Spray inside of trunks, closets and infested areas of shelving.

STORED GRAIN OR FLOUR INSECTS

Pyrenone General Purpose Spray is also useful in mills, elevators, granaries, warehouses, storages and other situations where an effective, fast-acting insecticide is required for on the exposed stages of Granary Weevils, Rice Weevils, Cigarette Beetles, Drugstore Beetles, Carpet Beetles, Sawtoothed Grain Beetles, Rust Red Flour Beetles, Confused Flour Beetles, Angoumois Grain Moths, Indian Meal Moths, Tobacco Moths, Meal Moths and Grain Mites. As a space or vapor spray, it provides rapid kill of flying and crawling stages. In cracks and crevices of floors, it is effective in the control of grain insects.

For Treatment of Floors and Sills: **Pyrenone General Purpose Spray** not only gives initial kill of the accessible stage of most stored grain and food product pests listed above, but gives some continued protection in cracks and crevices where insects hide. Apply with a good machine adjusted to deliver a coarse droplet spray using approximately 1 gallon of material to each 750 sq. ft. of surface. Repeat applications as needed.

In Mills, Elevators and Granaries: Thoroughly spray floors, walls and other surfaces of bins, storage and handling areas with particular attention to cracks and crevices and similar protected locations. Waste grain, dust, dirt and debris should be removed and destroyed and storage areas cleaned before spraying. Treat unloading, handling and processing areas and apply the insecticide to conveying, processing and handling equipment, the inside of reel after, purifier conveyors, sifters, roll housings and hoppers, pick-up conveyors, etc. Spray thoroughly around the bases of heavy machinery and equipment.

In Transit Protection and Control: Treat truck beds, box cars and ships holds before loading. For extended protection and control in warehouses and food products storages, treat exposed surfaces on recommended above and spray heavily into cracks, crevices, recesses, hiding and breeding areas. Thoroughly treat walls, floors, shelves and other exposed areas, and lightly spray each layer of cartons or containers stacked.

CONTACT SPRAY

Pyrenone General Purpose Spray is also very effective when used as a contact spray against Mosquitoes, Gnats, Wasps, Hornets, Skippers, Scorpions and Cheese Mites. When these insects are present, contacting them with a fine mist will provide immediate kill. Spraying walls, ceilings, lights, moldings, screen doors and door frames, beams and light cords will make these locations unfavorable or resting or hiding places for these insects.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store upright at room temperature. Avoid exposure to extreme temperatures.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Plastic Container: Triple rinse (or equivalent) then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
Metal Container: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
