DIRECTIONS FOR USE

DAIRY INDUSTRIES

- All equipment should be treated as follows:
 A) Rinse off with cold water immediately after use.
 B) Clean with a suitable detergent and hot water.
 C) Sanitize with a solution to obtain 25 PPM titrat-
 able iodine.

FOOD INDUSTRIES

- A) Clean thoroughly all food processing equip-
 ment with a good detergent and rinse with hot
 water.
 B) Sanitize with a solution of 25 PPM titratable
 iodine.

**FOR CLEANING AND SANITIZING WALLS, FLOORS
 AND CEILINGS,** use a solution of 50 PPM titratable
 iodine.

FOOD SERVICE INDUSTRIES

Before sanitizing dishes, glasses and other kitchen
 utensils wash with a good detergent and rinse
 with hot water. Sanitize with a solution of 25 PPM
 titratable iodine.

HOSPITALS & INSTITUTIONS

For general disinfection, use a solution of 75 PPM
 titratable iodine for previously cleaned non-porous
 surfaces. Use a solution of 150 PPM for previously
 cleaned porous surfaces or surfaces hard to clean.

COLD WATER GLASSWASHING MACHINES

For use in N. S. F. approved glasswashers, use
 according to manufacturers instructions.
