ted areas must be placarded on all entrances with signs containing at least the signal **ANGER** and the "Skull & Crossbones" and words "Area under fumigation, do not enter until completely aerated," the date of fumigation, the fumigant used, emergency telephone number for contact, and the name and address of fumigator. Do not remove warning signs until fumigated area is completely aerated and safe, as indicated by a suitable detector.

(see right panel)

RESTRICTED USE PESTICIDE:

For retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

AMERIBROM
Methyl Bromide-Grain fumigant
For use as a grain fumigant

Active ingredient
Methyl Bromide 100%

**KEEP OUT OF REACH OF CHILDREN
DANGER POISON**

Statement of Practical Treatment

If inhaled — Carry patient to fresh air. Call a physician at once. Make sure patient can breathe freely. Keep patient lying down and warm. Give artificial respiration if breathing has stopped. Oxygen should be administered only by qualified personnel.

If on skin — Immediately remove all contaminated skin covering including shoes, clothing and adhesive or other bandages. Wash skin thoroughly with soap and water, if irritation or blisters develop. Get medical attention. Do not reuse shoes or clothing until free of all contamination.

If in eyes — Flush immediately with plenty of water for at least 15 minutes and get medical attention.

See left side panel for additional precautionary statement.

FUMIGATION PROCEDURE

INSECTS CONTROLLED: All stored product insects including bran bugs, grain beetle, granary weevil, rice weevil, cadellies, mites, mealworms. Kills insects in all life stages. Kills rodents.

RATE OF APPLICATION: For space fumigation the usual rate is 1 to 3 pounds, for each 1000 cu. ft. of space for an exposure of 16 to 24 hours.

Usual Bulk Grain Fumigation Rates

Dried corn	2 lbs. 1000 cu. ft.
Wheat, barley, rye, oats, rice	3 lbs. 1000 cu. ft.
Grain sorghum (milo)	4 lbs. 1000 cu. ft.

CAUTION: Wear approved gas mask (black canister) when released gas in buildings. Do not wear gloves. Thoroughly aerate buildings after fumigation.

Do not fumigate food products other than those specified in directions and do not use dosages higher than recommended as this can in some cases result in residues in excess of those permitted. The following materials can develop undesirable odors when fumigated and should be moved from buildings. Rubber and patent leather articles, high protein flour and cereals, furs, horsehair articles, iodized salt, synthetic detergents, and any articles containing sulfur compounds. To avoid corrosion damage, extinguish all flame and turn off glowing wire heaters.

Do not fumigate if: (1) grain moisture is high, (2) grain temperature is low (below 60 degrees F), or (3) there is excessive dockage.

Warranty Statement

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
