EDABROM 85

Soil Fumigant Solution Containing Ethylene Dibromide
Useful in the control of nematodes and certain soil borne pests

ACTIVE INGREDIENTS

Ethylene Dibromide	83%
INERT INGREDIENTS	17%
	100%

This product contains 12 lbs of Ethylene Dibromide per gal.

KEEP OUT OF REACH OF CHILDREN

Statement of Practical Treatment

If swallowed—give two glasses of water (containing a slurry of activated charcoal, if possible) and induce vomiting by touching back of throat with finger or blunt object, or using Syrup of Ipecac. If unconscious do not induce vomiting; call doctor to insert cuffed endotracheal tube prior to gastric intubation.

If inhaled—remove to fresh air and call doctor. Reduce victim's physical activity to minimum. Give oxygen if available; artificial respiration may be necessary.

If in eyes—flush with plenty of water for at least 15 minutes and get medical attention.

If on skin—immediately, remove contaminated shoes and clothing and wash skin with soap and water. If irritation is severe get medical attention. Wash clothes before reuse. See label panel for additional Precautionary Statement.

WARRANT STATEMENT: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given here-with.
