Dr. Martian F. Kovacs, Jr.
Ameribrom, Inc.
2115 Linwood Avenue
Fort Lee, NJ 07014

Dear Dr. Kovacs:

Subject: Added label Claims
Biobrom C-103L
EPA Registration No. 8622-20
Amendment Application Dated March 2, 2001

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A), of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit and/or cite all data or material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec.4 when the Agency requires all registrants of similar products to submit such data.

2. Since you are adding new label claims, you must complete and return the enclosed Certification with Respect to Citation of Data (Offer-To-Pay Statement), EPA Form 8570-34 (Rev. 9-97).

3. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

Change the heading Statement of Practical Treatment to "First Aid. Revise the First Aid statement in accordance with PR Notice 2001-1 to read as follow:

CONCURRENCES							
SYMBOL							
SURNAME							
DATE							

FIRST AID

"IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice."

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice.

Have person sip a glass of water if able to swallow.

Do not induce vomiting unless told to by a Poison Control Center or doctor.

"IF ON SKIN OR CLOTHING: Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes

Call a Poison Control Center or doctor for treatment advice."

IF INHALED: Move person to fresh air.

if person is not breathing, call 911 or an ambulance, then give artificial respiration preferable mouth-to-mouth if possible.

Call a Poison Control Center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

In case of emergency call (insert toll-free emergency number).

Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

The following statements are suggested types of information that may be included in the First Aid statements if applicable:

- technical information on symptomatology;
- use of supportive treatments to maintain life functions;
- medicine that will counteract the specific physiological effects of pesticide;
- company telephone number to specific medical personnel who can provide specialized medical advice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

-3-

A stamped copy of the label is enclosed for you records.

If you have any question concerning this letter, please contact Portia Jenkins at (703) 308-6230.

Sincerely your,

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510C)

Enclosure

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide,

MANUFACTURED IN ISRAEL BY,

manufacture.

NOTE: For use only in industrial air-washer systems that maintain effective mist eliminating components.

manufacture.

DIRECTIONS FOR INDUSTRIAL PRESERVATION

APPLICATIONS

BIOBROM C-103L may be used to reduce microbiological contamination in raw materials and/or products such as; aqueous paints and coatings, polymers, slurries, adhesives, latex and resin emulsions, sizing, caulk, process water, along with specialty industrial products including: inks, polishes, waxes, detergents, and cleansers.

TO REDUCE MICROBIOLOGICAL CONTAMINATION

Add BIOBROM C-103L to the material or product at a concentration of 25 to 2,000 ppm by weight. This concentration is equivalent to 2.8 to 224.0 fluid ounces BIOBROM C-103L per 1,000 gallons or 21.4 to 1,712.0 milliliters BIOBROM C-103L per 1,000 liters. The required concentration will depend on the material being treated and the level of contamination present.

DIRECTIONS FOR TREATING PUBLICLY-OWNED

TREATMENT WORKS

TO CONTROL COLIFORM AND OTHER BACTERIA

Add BIOBROM C-103L at a concentration of 1.0 to 10.0 ppm by weight of water being treated, depending on the severity and contamination in the system. Addition should be CONTINUOUS and should be made with a metering pump at a point in the system where mixing will be rapid and thorough. Add BIOBROM C-103L to the system in a location where contact time will be 30 minutes or greater before reaching the outfall.

TO USE AS A CO-TREATMENT WITH CHLORINE

Add 0.4 - 1.5 ppm BIOBROM C-103L by weight of water treated. Chlorination should result in a minimum detectable residual (i.e., greater than zero but less than the NPDES permit level) Addition should be CONTINUOUS and made at a point just after initial chlorine mixing. Rapid mixing is necessary for maximum effectiveness. BIOBROM C-103L should be added at a location where a contact time of 10 minutes or longer will be provided before reaching the outfall.

**ACCEPTED
