EPA Reg. No. 690-27 EPA No. 10129-6A-1
STERILOID BACTERIOSTAT
All Steriloid Bacteriostat is formulated to destroy and prevent the growth of bacteria, fungi, and viruses. It is a powerful disinfectant and deodorizer. It is safe for use on all surfaces and is non-toxic to humans and animals. It is also effective against odors and stains. It is available in 120 lb., 150 lb., and 250 lb. containers.

WARNING:
KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE
Steriloid Bacteriostat is a powerful disinfectant and deodorizer. It is safe for use on all surfaces and is non-toxic to humans and animals. It is also effective against odors and stains. It is available in 120 lb., 150 lb., and 250 lb. containers.

STORAGE AND DISPOSAL

Store Steriloid Bacteriostat in a cool, dry place. Do not store in a metal container. Do not use if the container is damaged. Do not use if the product has become solid or if it has a strong odor. Do not use if the product has a strong odor.

MAY BURN THE SKIN * MAY BE FATAL IF SWALLOWED

Do not breathe dust. Do not get in eyes. Do not get on skin. Do not get on clothes. Do not get on shoes. Do not get on pants. Do not get on underwear. Do not get on hair.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Apply this product only as directed on the label. Do not contaminate water by cleaning of equipment or disposal of wastes. NOTE: Do not discharge into lakes, streams, ponds, or public water supplies in accordance with a NPDES permit. For guidance, contact your regulatory office of the EPA.

CHEMICAL AND PHYSICAL HAZARDS

Strong oxidizer. Mix with water only. Reaction with combustible organic materials. Exothermic reaction with oxidizers may generate heat, gases and possibly fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical remnants. Does not burn, but will decompose from about 325°F (160°C), releasing toxic gases. Avoid accumulation and dusting.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in cool, dry, well-ventilated area in well-locked original containers away from energy sources, combustible organic materials, oxidizers, acids, bases and moisture. When handling or dealing with spills, use impact resistant goggles with side shields or face shield, body covering clothes, including impervious rubber or plastic gloves and boots, use a dust respirator if dusting occurs. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or empty container is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Emergency Team at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and punctured drum in a sanitary landfill or by incineration if allowed by State and local authorities or by burning. If burned, trace out of smoke. Do not reuse container. SPILLS: Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reuse container. Incinerate unreacted drum in the open or in well-ventilated area. Flood with large volumes of water if necessary. IN CASE OF FIRE: Do not use ammonium phosphate extinguisher near water and flammable. Hazardous reactions may occur.

DO NOT SMOKE, DRINK OR EAT WHEN HANDLING

IN CASE OF EMERGENCY, CONTACT CHEMTEC (800)424 9300 (24 HOURS), AMERIBROM, INC (212)563 4600 (CALL COLLECT).

ALZAR TOP AND SERVIC TOP, FOR TREATING AND INSULATING COOLING WATER IN INDUSTRIAL COOLING SYSTEMS AND INDUSTRIAL COOLING TOWER COOLING WATER SYSTEMS

ACTIVE INGREDIENT: 1,3-bis(2-chloro-5,5-dimethylhydantoin) 96% INERT INGREDIENTS 4%

TOTAL 100%

KEEP OUT OF REACH OF CHILDREN

DANGER

CORROSIVE AND STRONG OXIDIZER

STATEMENT OF PRACTICAL TREATMENT

- If in eyes: Flush eyes immediately with plenty of water for at least 15 minutes and get medical attention at once.
If on skin: Wash immediately with soap and plenty of water. Remove and wash contaminated clothing before reuse.
If swallowed: Give large amounts of water to dilute the toxicant. If immediately available, demulcents like milk, vegetable oil or egg whites can be given. Do not induce vomiting as it is likely to cause considerable mucosal damage.
If inhaled: Remove person to fresh air immediately. Get medical attention at once.

USE WITH ADEQUATE VENTILATION WASH THOROUGHLY AFTER HANDLING

	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Halogene	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

ARSELDOM, Inc.
1250 Broadway
New York, NY 10001

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/obtain all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 8622-28" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the 4-73 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(c). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

KEEP OUT OF REACH OF CHILDREN
D A N G E R
CORROSIVE AND STRONG OXIDIZER

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush eyes immediately with plenty of water for at least 15 minutes and get medical attention at once.

If on skin: Wash immediately with soap and plenty of water. Remove and wash contaminated clothing before re-use.

If swallowed: Only after giving raw egg whites or milk and two glasses of water induce vomiting by sticking finger down throat, if needed. Repeat giving egg whites or milk and glasses of water until vomit is clear. Call a physician. Never give anything by mouth to an unconscious person.

If inhaled: Remove person to fresh air immediately. Get medical attention at once.

Note to physician: Dilution of an inorganic corrosive is a safer first aid treatment than emesis.

USE WITH ADEQUATE VENTILATION
WASH THOROUGHLY AFTER HANDLING
KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE:

Store in cool, dry, well-ventilated area, in well-closed original containers, away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture. When handling or dealing with spills, use impact-resistant goggles with side-shields or face shield; body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and punctured drum in a sanitary landfill or by incineration if allowed by State and local authorities, or, if allowed by State and local authorities, by burning. If burned stay out of smoke. Do not re-use container.

SPIILLS:

Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reseal container; isolate unsealed drum in the open or a well-ventilated area; flood with large volumes of water if necessary.

IN CASE OF FIRE:

Do not use ammonium phosphate extinguisher near water and HaloGene hazardous reactions may occur.

DO NOT SMOKE, DRINK OR EAT WHEN HANDLING

DIRECTIONS FOR TREATING INDUSTRIAL RECIRCULATING COOLING WATER SYSTEMS

Used effectively at dosages recommended to achieve exposures to one part per million (ppm) of 'active' residual bromine to control algal, bacterial and fungal slimes in industrial cooling towers; influent water systems, e.g., flow-through filters, and lagoons, etc.; heat-exchange water systems; industrial water scrubbing systems; brewery pasteurizers, and industrial air-washing systems equipped with a mist eliminator.

Dosage Rates

Initial dose: When noticeably fouled, add 2-6 lbs/10,000 gallon of water contained in the system. Repeat initial dosage until one ppm of 'active' residual bromine is established for at least 4 hours.

Subsequent dose: When microbial control is evident, add 1-3 lbs/10,000 gallons of water contained in the system. Repeat as needed to maintain one ppm of 'active' residual bromine for at least 4 hours.

DIRECTION FOR TREATING ONCE - THROUGH INDUSTRIAL COOLING WATER SYSTEMS

Used for the control of algal, bacterial and fungal slimes, by adding to the system inlet, or before any other contaminated area in the system, in once-through and closed-cycle fresh and sea water cooling systems; cooling ponds; canals; and lagoons.

Dosage Rates

Initial dose: When noticeably fouled, add 2-6 lbs/10,000 gallon of water contained in the system. Repeat initial dosage until one ppm of 'active' residual bromine is established for at least 4 hours.

Subsequent dose: When microbial control is evident, add 1-3 lbs/10,000 gallons of water contained in the system. Repeat as needed to maintain one ppm of 'active' residual bromine for at least 4 hours.
